that the agency will at 9:30 a.m., Tuesday, December 30, 1986, in the Offices of the Liquor Control Board, 5th Floor, Capital Plaza Building, 1025 East Union Avenue, Olympia, WA 98504, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 66.08.030 and 66.08.080.

The specific statute these rules are intended to implement is RCW 66.24.410 and 66.44.420 [66.24.420].

STATEMENT OF PURPOSE

Title: WAC 314-16-196 Class H license issued to premises without a cocktail lounge.

Description of Purpose: The purpose of this amendment is to provide the board with needed flexibility in dealing with floor space requirements in Class H liquor licensed premises. This amendment will also remove the language that requires service bars to be hidden from view and the language that prohibits patron order and pick up of liquor at the service bars. The amendment also gives the board flexibility in approving service bar arrangements.

Statutory Authority: RCW 66.08.030 and 66.08.080.

Statutes Implemented by the Rule: RCW 66.24.410 and 66.24.420.

Summary of Rule: At this time the rule requires that the premises will have a cocktail lounge comprising not more than thirty-five percent of the total available floor space as compared to dining space which must be a minimum of sixty-five percent of the public floor space of the premises. The amendment would also permit unscreened service bars and patron order and pick up of liquor on Class H premises.

Reason Supporting Proposed Action: The amendment would permit the board to approve minor variations to the floor space requirements when the applicant/licensee demonstrates that the variation would best utilize available floor space. The change would allow the board to approve service bar arrangements that would best suit Class H premises, the physical structure and the licensee's operation.

Agency Personnel Involved: In addition to the board, the following agency personnel have responsibility for drafting, implementing, and enforcing this rule: Gary W.

Gilbert, Chief, Enforcement Division, Capital Plaza Building, Olympia, WA 98504, phone (206) 753-6270.

Person or Organization Proposing Rule: Washington State Liquor Control Board.

Agency Comments: None.

Necessity of Rule: Not made necessary as a result of federal law or federal or state court action.

Small Business Economic Impact Statement: There will be no negative cost impact.

AMENDATORY SECTION (Amending Order 194, Resolution No. 203, filed 7/22/86)

WAC 314-16-196 CLASS H LICENSE ISSUED TO PREMISES WITHOUT A COCKTAIL LOUNGE. (1) Before the board shall issue a Class H license to a bona fide restaurant, the applicant shall present, and receive the approval of the board for, a one-quarter inch equals one foot scale drawing of the proposed premises indicating that the premises will have a cocktail lounge comprising not more than thirty-five percent of the total public floor space of the premises, as compared to dining space which as a minimum must be sixty-five percent of the public floor space of the premises or that the premises will have a service bar(s) in lieu of the cocktail lounge: PROVIDED, HOWEVER, That the board may approve variations to the floor space requirement of this subsection where the applicant/licensee can demonstrate that the proposed layout would best suit the available floor space.

(2) Those premises not having cocktail lounges shall have the location of their ((approved)) service bar(s) ((located in such a manner as to be removed from the sight of customers)) approved by the board. Service of liquor from such service bar(s) will be by the licensee, or licensee's employees ((only and)) or customers may order and pick up their drinks at the service bar(s). Liquor sale, service and consumption may take place only during hours that the full restaurant menu is available and a chef or cook is on duty.

(3) A Class H licensed restaurant having a service bar(s) in lieu of a cocktail lounge shall be eligible for the added activity of live music with board approval.

(4) If the board issues a Class H license to a bona fide restaurant which has a service bar in lieu of an approved cocktail lounge and the licensee subsequently applies for approval to install a cocktail lounge in place of the previously approved service bar operation, the board will process such a change in the same manner as an application for a new Class H license (i.e. notice will be given by posting at the premises, local officials, churches and schools will be notified, etc.).

NEW SECTION

WAC 106-72-005 AFFIRMATIVE ACTION POLICY STATEMENT. It is the policy of Central Washington University to:

(1) Recruit, hire, train, and promote persons in all job titles, without regard to race, color, religion, creed, age,

national origin, disabled or Vietnam era veteran status, the presence of any physical, mental, or sensory handicap, marital status, sexual orientation, or sex except where a bona fide occupational qualification exists.

(2) Insure that all personnel actions such as compensation, benefits, transfers, terminations, layoffs, return from layoff, reductions in force (RIF), university sponsored training, education, tuition assistance, and social and recreation programs, will be administered without regard to race, color, religion, sex, age, national origin, creed, marital status, or the presence of any physical, mental or sensory handicap.

NEW SECTION

WAC 106-72-015 ANNUAL WORKFORCE ANALYSIS. (1) The affirmative action office will conduct an annual workforce analysis for each department and a separate utilization analysis for minorities and women in each major job group. If underutilization exists, the university will set forth specific goals and timetables for minorities and women. Underutilization is defined as "having fewer women or minorities in a particular job than would reasonably be expected by their availability." (Higher Education Guidelines, Executive Order 11246.)

(2) The university and each organizational unit will make every possible effort to recruit and employ qualified minorities and women to fill vacancies in order to achieve its goals, searching for personnel in areas and channels previously unexplored to the extent necessary to overcome underutilization. Before each vacancy can be officially filled, a designee of the affirmative action office or the personnel and benefits office must certify that the appropriate recruitment and hiring procedures have been followed.

NEW SECTION

WAC 106-72-025 NONDISCRIMINATION IN DELIVERY OF SERVICES. Central Washington University will provide equal access to all programs for all students on the basis of merit without regard to race, color, religion, sex, age, national origin, or the presence of any sensory, physical, or mental handicap.

No person will be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity sponsored by the university.

AMENDATORY SECTION (Amending Order 39, filed 7/11/78)

WAC 106-72-250 PROCEDURES, RULES, AND REGULATIONS—GOVERNMENT CONTRACTS. The university will establish and maintain nondiscriminatory practices in the fulfillment of all its contracts with any governmental agency. It will fully comply with any federal, state, or local governmental regulations which request a policy or procedural statement on nondiscrimination.

In the case of federal contracts for research grants and awards, the office of graduate studies and research

((and development)) will be charged with development and inclusion in any contract a statement of nondiscrimination in the fulfillment of such contract.

NEW SECTION

WAC 106-72-400 AFFIRMATIVE ACTION GRIEVANCE PROCEDURE. (1) A person who believes he or she has been discriminated against by Central Washington University because of race, color, ethnic background, religion, national origin, sex, physical or mental handicap, or Vietnam era or disabled veteran status is encouraged to utilize the grievance procedures provided by Central Washington University. There are informal and formal means of addressing complaints through the affirmative action office. These should be used as soon as possible after the alleged act of discrimination.

(2) All persons who seek the advice and assistance of the affirmative action office shall have explained to them the informal and the formal grievance procedures available to them through the university as well as the existence of external complaint procedures available through state and federal agencies. They shall also receive a copy of the affirmative action grievance procedure.

NEW SECTION

WAC 106-72-410 INFORMAL GRIEVANCE PROCEDURE. Informal review and consultative processes are highly desirable means of resolving problems. Use of those methods by individuals (e.g., students, employees, applicants) at the lowest possible level within the university is strongly encouraged.

(1) Individuals who believe that they have been the target of discrimination by Central Washington University are encouraged to discuss the matter initially with their department chair, dean, administrative supervisor or department head. Students are encouraged to discuss the matter with the appropriate department chair, dean, or the dean of students. The matter may be concluded by mutual consent at this point. However, complainants should feel free to bring the alleged act of discrimination to the attention of the director of affirmative action at any time.

(2) Any person may contact the affirmative action office for informal discussion, advice, and assistance. These contacts are kept confidential. The affirmative action director or a designee will assist the complainant(s) in determining whether there exists any relationship of the complaint to civil rights legislation and the university's affirmative action program.

(3) With the consent of the complainant, there may be facilitation or informal intervention by the affirmative action director or a designee. Discussion of the grievance by the affirmative action director or a designee with the immediate supervisor of the respondent may follow the visit to the affirmative action office by the complainant. The discussion between the director of affirmative action and the immediate supervisor shall be confidential. The complainant may choose to participate in this discussion at his/her option. At this time it shall be the option of

the director of affirmative action to notify the respondent's next higher supervisory authority of the complaint.

(4) All discussions held under this informal procedure shall have the goal of resolving the matter without the necessity of entering into a formal complaint procedure.

NEW SECTION

WAC 106-72-420 FORMAL GRIEVANCE PROCEDURE. The procedures hereunder pertain to the filing of a formal complaint. Any aggrieved person may file a formal complaint against any employee of the university if he or she believes illegal discrimination has taken place by filing a written description of the alleged discrimination with the affirmative action office on a form provided by that office. Statements should be as detailed and accurate as possible, including a statement of the specific allegation of discrimination. (e) A verification that the records requested shall not be used to compile a commercial sales list.

Such written request by a person or his duly authorized representative demanding prompt review shall specifically reference the written statement by the university denying that person's request for a public record.

(3) During the course of the two business days in which the president or his designee reviews the decision of the public records officer denying the request for a public record, the president or his designee may conduct an informal hearing. During the course of such informal

hearing, the president or his designee may require that the person requesting the public record or his duly authorized representative appear at a reasonable time and place located on the campus and further explain and identify the exact nature of the public record he is seeking. Failure by the person requesting the review hearing or his duly authorized representative to appear at such informal hearing shall be deemed a waiver of that person's right to insist upon completion of the review of his request within two business days. If the petitioner requesting review or his duly authorized representative does appear at such informal hearing, then the period for review by the university shall be extended to a period not exceeding twenty-four hours after such person requesting review or his duly authorized representative has appeared before the president or his designee.

(4) During the course of the informal hearing conducted by the president or his designee under this section, the hearing officer shall consider the obligations of the university fully to comply with the intent of chapter 42.17 RCW insofar as it requires providing public access to official records, but shall also consider the exemptions provided in RCW 42.17.310 and the requirement of ((section 29 [RCW 42.17.290] of that same initiative [Initiative 276])) RCW 42.17.290 insofar as it requires the university to protect public records from damage or disorganization, prevent excessive interference with essential functions of the agency, and to prevent any unreasonable invasion of personal privacy by deleting identifying details.

New	WAC 315-11-232	Ticket validation requirements for Instant Game Number 23.

We, the Washington State Lottery Commission, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is existing emergency rules will expire before permanent rules could be adopted. Instant Game 23 will begin before permanent rules could be effective. Delay in implementation would be contrary to public interest.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 67.70.040 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED November 7, 1986.

Acting Director

(2) A claim shall be entered in the name of a single legal entity as claimant, either one individual or one organization. The claimant must show his or her social security number (SSN) or the organization's federal employer's identification number (FEIN) on the lottery winner claim form. A claim may be entered in the name of an organization only if the organization is a legal entity and possesses a federal employer's identification number (FEIN) as issued by the internal revenue service and such number is shown on the claim form. Groups, family units, organizations, clubs, or other organizations which are not a legal entity, or do not possess a federal employer's identification number, shall designate one individual in whose name the claim is to be entered.

(3) Unless otherwise provided in the rules for a specific type of game, a claimant shall sign the back of the ticket and/or complete and sign a claim form approved by the director. The claimant shall submit the claim form and/or claimant's ticket to the lottery in accordance with the director's instructions as stated in the players' manual and/or on the back of the ticket or submit a request for reconstruction of an alleged winning ticket and sufficient evidence to enable reconstruction and that the claimant had submitted a claim for the prize, if any, for that ticket. The claimant, by submitting the claim or request for reconstruction, agrees to the following provisions:

(a) The discharge of the state, its officials, officers, and employees of all further liability upon payment of the prize; and

(b) The authorization to use the claimant's name for publicity purposes upon award of the prize.

(4) A prize must be claimed within the time limits prescribed by the director in the instructions for the conduct of a specific game, but in no case shall a prize be claimed later than ((+80)) one hundred eighty days after the official end of that instant game or the on-line game drawing for which that on-line ticket was purchased.

(5) The director may deny awarding a prize to a claimant if:

(a) The ticket was not legally issued initially;

(b) The ticket was stolen from the commission, director, its employees or retailers, or from a lottery retailer, or

(c) The ticket has been altered or forged, or has otherwise been mutilated such that the authenticity of the ticket cannot be reasonably assured by the director.

(6) The director may delay payment of any prize that exceeds six hundred dollars and debts are owed by the claimant to a state agency or political subdivision, or that the state is authorized to enforce or collect as provided in WAC 315-06-125.

(7) No person entitled to a prize may assign his or her right to claim it except:

(a) That payment of a prize may be made to any court appointed legal representative, including, but not limited to, guardians, executors, administrators, receivers, or other court appointed assignees; or

(b) For the purposes of paying federal, state or local tax.

((7)) (8) In the event that there is a dispute or it appears that a dispute may occur relative to any prize, the director may refrain from making payment of the prize pending a final determination by the director or by a court of competent jurisdiction relative to the same.

((8)) (9) A ticket that has been legally issued by a lottery retailer is a bearer instrument until signed. The person who signs the ticket is considered the bearer of the ticket. Payment of any prize may be made to the bearer, and all liability of the state, its officials, officers, and employees and of the commission, director and employees of the commission terminates upon payment.

((9)) (10) All prizes shall be paid within a reasonable time after the claims are validated by the director and a winner is determined. Provided, prizes paid for claims validated pursuant to WAC 315-10-070(2) shall not be paid prior to one hundred eighty-one days after the official end of that instant game. (b) If the prize was awarded in a manner other than a drawing conducted by the lottery, installment payments shall be made weekly, monthly, or annually from the date the claim is validated in accordance with the type of prize awarded.

((10)) (11) The director may, at any time, delay any payment in order to review a change of circumstances relative to the prize awarded, the payee, the claim or any other matter that may have come to his or her attention. All delayed payments shall be brought up to date immediately upon the director's confirmation and continue to be paid on each originally scheduled payment date thereafter.

((11)) (12) If any prize is payable for the life of the claimant, only a natural person may claim such a prize and, if claiming on behalf of a group, corporation or the like, the life of such natural person claiming the prize shall be the measuring life.

((12)) (13) The director's decisions and judgments in respect to the determination of a winning ticket or of any other dispute arising from the payment or awarding of prizes shall be final and binding upon all participants in the lottery.

((13)) (14) Each lottery retailer shall pay all prizes authorized to be paid by the lottery retailer by these rules during its normal business hours at the location designated on its license.

((14)) (15) In the event a dispute between the director and the claimant occurs as to whether the ticket is a winning ticket, and if the ticket prize is not paid, the director may, solely at his or her option, replace the disputed ticket with an unplayed ticket (or tickets of equivalent sales price from any game). This shall be the sole and exclusive remedy of the claimant.

STATEMENT OF PURPOSE

Title: WAC 220-16-390 Sea cucumber districts, 220-52-071 Sea cucumbers, 220-54-074 Sea cucumbers—Areas and seasons, and 220-52-075 Shellfish harvest logs.

Description of Purpose: Establish sea cucumber districts, establish permit only sea cucumber fishery, establish seasonal restrictions and modify reporting requirements.

Statutory Authority: RCW 75.08.080.

Summary of Rule and Reasons Supporting Proposed Action: Four sea cucumber management districts are created for ease of management description. These areas will be harvested on a rotating basis in order to provide for a sustained harvestable yield. Also provided for is a permit-only fishery and stricter reporting requirements, as the available data indicates the fishery is not being accounted for.

Personnel Responsible for Drafting: Evan S. Jacoby, 115 General Administration Building, Olympia, Washington, 586-2429; Implementation: Ronald E. Westley, 115 General Administration Building, Olympia, Washington, 753-6772; and Enforcement: James W. McKillip, 115 General Administration Building, Olympia, Washington, 753-6585.

These rules are proposed by the Washington Department of Fisheries.

Comments: No public hearing is scheduled.

These proposals are not the result of federal law or court order.

Small Business Economic Impact Statement: No differential impact is anticipated. No effect on 10% of businesses in any one three-digit industrial classification nor 20% of all businesses is expected.

AMENDATORY SECTION (Amending Order 84-49, filed 3/6/85)

WAC 173-403-030 DEFINITIONS. Unless a different meaning is clearly required by context, words and phrases used in this chapter and other chapters of Title 173 WAC shall have the following meanings:

(1) "Actual emissions" as of a particular date means the average rate, in weight per unit time, with air pollution controls applied, at which the affected emission unit emitted the pollutant during the two-year period which precedes the particular date, and which is representative of normal operation. An adjustment may be made to the average annual emission rate to account for unusual circumstances during the two-year period. The department or cognizant local authority may allow or require the use of an alternative time period upon a determination that the alternative time period is more representative of normal operation than is the immediately-preceding two years. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period.

The department or cognizant local authority may presume that source-specific allowable emissions, which incorporate limits on hours of operation or production rate, are equivalent to the actual emissions of the unit.

(2) "Adverse impact on visibility" means visibility impairment which interferes with the management, protection, preservation, or enjoyment of the visitor's visual experience of the Federal Class I area. This determination must be made on a case-by-case basis taking into account the geographic extent, intensity, duration, frequency, and time of visibility impairments, and how

these factors correlate with (a) times of visitor use of the Federal Class I area, and (b) the frequency and timing of natural conditions that reduce visibility. This term does not include effects on integral vistas.

(3) "Air contaminant" means dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substance, or any combination thereof. "Air pollutant" means the same as "air contaminant."

(4) "Air pollution" means the presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities, and of such characteristics and duration as is, or is likely to be, injurious to human health, plant or animal life, or property, or which unreasonably interferes with enjoyment of life and property.

(5) "Allowable emissions" means the emission rate calculated using the maximum rated capacity of the source (unless the source is limited in production rate or hours of operation, or both, by an applicable regulatory order) and the most stringent of (a), (b), or (c) of this subsection. Physical and process limitations must be considered in determining maximum rated capacity.

(a) Standards as set forth in 40 CFR Part 60 and Part 61, if applicable to the source; or

(b) The applicable state implementation plan emission limitation; or

(c) The emission rate specified by an applicable regulatory order.

(6) "Ambient air" means the surrounding outside air.

(7) "Ambient air quality standard" means an established concentration, exposure time, and frequency of occurrence of air contaminant or multiple air contaminants in the ambient air which shall not be exceeded.

(8) "Best available control technology (BACT)" means technology which will result in an emission limitation (including a visible emission standard) based on the maximum degree of reduction for each air pollutant subject to this regulation which would be emitted from any proposed new or modified source which the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such sources or modification through application of production processes, available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such air pollutant. In no event shall application of the best available technology result in emissions of any air pollutant which would exceed the emissions allowed by any applicable standard under 40 CFR Part 60 and Part 61. If the reviewing agency determines that technological or economic limitations on the application of measurement methodology to a particular class of sources would make the imposition of an emission standard infeasible, it may instead prescribe a design, equipment, work practice or operational standard, or combination thereof, to meet the requirement of best available control technology. Such standard shall, to the degree possible, set forth the emission reduction achievable by implementation of such design, equipment, work practice or operation and shall provide for compliance by means which achieve equivalent results. The requirement of RCW 70.94.152 that a new source will provide "all known available and reasonable methods of

"emission control" is interpreted to mean the same as best available control technology.

(9) "Best available retrofit technology (BART)" means any emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant which is emitted by source. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and nonair quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology. If an emission limitation is not feasible, a design, equipment, work practice, operational standard, or combination thereof, may be required. Such standards shall, to the degree possible, set forth the emission reductions achieved and provide for compliance by prescribing appropriate conditions in a regulatory order.

(10) "Bubble" means a set of emission limits which allows an increase in emissions from a given emissions unit or units in exchange for a decrease in emissions from another emissions unit or units, pursuant to RCW 70.94.155.

(11) "Class I area" means any federal, state, or Indian land which is classified or reclassified Class I.

(12) "Cognizant local authority" means an air pollution control authority activated pursuant to chapter 70-94 RCW that has jurisdiction over the subject source.

(13) "Commenced construction" means that the owner or operator has all the necessary preconstruction approvals or permits and either has:

(a) Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or

(b) Entered into binding agreements or contractual obligations, which cannot be cancelled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

(14) "Department" means the Washington state department of ecology.

(15) "Director" means director of the Washington state department of ecology or duly authorized representative.

(16) "Dispersion technique" means ((any one of the following:

(a) A stack whose height exceeds good engineering practice; or

(b) An intermittent or supplemental control of pollutants varying with atmospheric conditions, including any method which attempts to affect the concentration of a pollutant according to atmospheric conditions and the manipulation of source process parameters or selective handling of exhaust gas streams; or

(c) Use of a fan or reheater to obtain a less stringent emission limitation)) a method which attempts to affect the concentration of a pollutant in the ambient air, other than by the use of pollution abatement equipment or integral process pollution controls.

(17) "Emission" means a release of air contaminants into the ambient air.

(18) "Emission reduction credit (ERC)" means a credit granted to a source for a voluntary reduction in actual emissions.

(19) "Emission standard" means a regulation or regulatory order (or portion thereof) setting forth an allowable rate of emissions, level of opacity, or prescribing equipment or operating conditions that result in control of air pollution emission.

(20) "Emissions unit" means any equipment, device, process, or activity that ((produces and)) emits to the ((outside)) ambient air, or that may ((produce and)) emit to the ((outside)) ambient air, any air contaminant ((regulated by state or federal law)).

(21) "Excess stack height" means that portion of a stack which exceeds the greater of sixty-five meters or the calculated stack height described in WAC 173-403-140(2).

(22) "Fugitive emissions" means emissions which do not pass and which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

((22))) (23) "Good engineering practice (GEP)" refers to ((the height of a stack and means one of the following, whichever is the greatest:

(a) Sixty-five meters; or

(b) Height determined by formula. For stacks in existence on or before January 12, 1979, formula height is two and one-half times the height of any nearby structure. For stacks constructed after January 12, 1979, formula height is the height of any nearby structure plus one and one-half times the height or width of said structure, whichever is lesser. The height of the nearby structure is measured from ground level at the base of the stack. "Nearby," as used in this paragraph, means that distance up to five times the lesser of the height or width dimension of said structure, but no greater than .8 kilometer; or

(c) Height determined by physical demonstration of need to prevent excessive concentrations of a pollutant due to downwash, wakes, or eddies created by structures or terrain obstacles. To make such a demonstration it is required that maximum concentrations caused by the source's emissions from its proposed stack height, without consideration of nearby structures or terrain obstacles, will increase at least forty percent when the effects of the structures or terrain obstacles are considered. This difference in concentrations must be shown either by a fluid model study conducted in accordance with guidelines published by the environmental protection agency or by a field study which has been approved by the department or cognizant local authority. Such a study may be approved only after public involvement pursuant to WAC 173-403-110)) a calculated stack height based on the equation specified in WAC 173-403-140 (2)(a)(ii).

((23))) (24) "In operation" means engaged in activity related to the primary design function of the source.

((24))) (25) "Integral vista" means a view perceived from within the Class I area of a specific landmark or panorama located outside the boundary of the Class I area.

((25)) (26) "Land manager" means the secretary of the federal or head of the state department or Indian governing body with authority over the Class I area.

((26)) (27) "Lowest achievable emission rate (LAER)" means for any source that rate of emissions which reflects:

(a) The most stringent emission limitation which is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed new or modified source demonstrates that such limitations are not achievable; or

(b) The most stringent emission limitation which is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

((27)) (28) "Major emissions unit" means any emissions unit which has actual or allowable emissions of one hundred tons per year or more of any pollutant regulated by state or federal law.

((28)) (29) "Major modification" means (a), (b), or (c) of this subsection, whichever is the most stringent:

(a) Any physical change or change in the method of operation of a major source, a source that would become a major source as a result of the proposed change, or a major emissions unit or an emissions unit that would become a major emissions unit as a result of the proposed change that is located in an area that is not in attainment for the pollutant under consideration or is located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, which change would cause a net significant emissions increase for any pollutant regulated by state or federal law, except that a net significant emissions increase for any one of the following reasons shall not, in itself, cause the change to be a major modification:

(i) Use of an alternative fuel or raw material by reason of an order under Sections 2 (a) and (b) of the Federal Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan pursuant to the Federal Power Act; or

(ii) Use of an alternative fuel by reason of an order or rule under Section 125 of the Federal Clean Air Act; or

(iii) Use of an alternative fuel or raw material that the source is capable of accommodating and was capable of accommodating prior to December 21, 1976, unless such change in fuel or raw material use is prohibited by a regulatory order; or

(iv) Use of an alternative fuel at a steam-generating unit to the extent that the fuel is generated from municipal solid waste; or

(v) An increase in the hours of operation or the production rate unless such increases are prohibited by a regulatory order.

(b) Any physical change or change in the method of operation of a major source, a source that would become a major source as a result of the proposed change, or a major emissions unit or an emissions unit that would become a major emissions unit as a result of the proposed

change that is located in an area that is not in attainment for the pollutant under consideration or is located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, which change would cause the allowable emissions to be exceeded.

(c) Any reconstruction of a major source, or any reconstruction of a major emissions unit that is located in an area that is not in attainment for the pollutant under consideration or located in an area that is not in attainment for ozone and the pollutant under consideration is volatile organic compounds, for which reconstruction the fixed capital cost of the new components exceeds fifty percent of the fixed capital cost of a comparable entirely new source or emissions unit.

((29)) (30) "Major source" means any source which has actual or allowable emissions of one hundred tons per year or more of any pollutant regulated by state or federal law.

((30)) (31) "National Emission Standards for Hazardous Air Pollutants (NESHAPS)" means the federal regulations set forth in 40 CFR Part 61, as promulgated prior to January 1, 1983.

((31)) (32) "Natural conditions" include naturally occurring ((phenomenon)) phenomena that reduce visibility as measured in terms of visual range, contrast, or coloration.

((32)) (33) "Net emissions increase" means the amount by which the sum of the following exceeds zero:

(a) Any increase in actual emissions of a pollutant resulting from a physical change or change in method of operation of a specific emission unit in a source; and

(b) Any other increases or decreases in actual emissions of the same pollutant from the source that are contemporaneous with the change: PROVIDED, That

(i) Said other increases or decreases are contemporaneous with the change only if they occur at the same time or within one year prior to the change, or if said decrease(s) has been documented by an emission reduction credit; and

(ii) Said other decreases in emissions are creditable only to the extent that the old level of actual emissions or the old level of allowable emissions, whichever is the lesser, exceeds the new level of allowable emissions; and

(iii) Said other decreases in emissions are not creditable if the specific emissions unit is a major emissions unit and is located (A) in an area that is not in attainment for the pollutant or (B) in an area that is not in attainment for ozone and the pollutant is volatile organic compounds; and

(iv) The determination of net emissions increase shall be valid only after a regulatory order has been issued which establishes that the new emissions from every emissions unit involved in the determination are equal to the new allowable emissions expressed as weight of the pollutant per unit time.

((33)) (34) "New source" means a source which commences construction after the effective date of this chapter. Addition to, enlargement, modification, replacement, or any alteration of any process or source

which may increase emissions or ambient air concentrations of any contaminant for which federal or state ambient or emission standards have been established shall be construed as construction or installation or establishment of a new source. In addition every major modification shall be construed as construction or installation or establishment of a new source.

((34)) (35) "New source performance standards (NSPS)" means the federal regulations set forth in 40 CFR Part 60, as promulgated prior to ((January 1, 1983)) September 1, 1986.

((35)) (36) "Nonattainment area" means a clearly delineated geographic area which has been designated by EPA promulgation as exceeding a national ambient air quality standard or standards for one or more of the criteria pollutants.

((36)) (37) "Notice of construction" means a written application to permit construction of a new source or modification of an existing source.

AMENDATORY SECTION (Amending Order DE 83-22, filed 8/26/83)

WAC 173-403-110 PUBLIC INVOLVEMENT.

(1) Applicability. Public notice shall be provided prior to the approval or denial of any of the following types of applications or other actions:

- (a) Notice of construction for any new or modified source or emissions unit, the approval of which would result in a net significant emissions increase for any pollutant regulated by state or federal law; or
- (b) Any application or other proposed action for which a public hearing is required by EPA prevention of significant deterioration rules; or
- (c) Any order to determine reasonably available control technology; or
- (d) An order to establish a compliance schedule or a variance; or

- (f) An ((approval of a study to demonstrate good engineering practice for a stack)) order to demonstrate the creditable height of a stack which exceeds the GEP formula height and sixty-five meters, by means of a fluid model or a field study, for the purposes of establishing an emission limitation; or
- (g) An order to authorize a bubble; or
- (h) Any application or other proposed action made pursuant to this chapter in which there is a substantial public interest according to the discretion of the department or cognizant local authority.

(2) Public notice. Public notice shall be made only after all information required by the department or cognizant local authority has been submitted and after applicable preliminary determinations, if any, have been made. The cost of providing public notice shall be borne by the applicant or other initiator of the action. Public notice shall include:

- (a) Availability for public inspection in at least one location near the proposed project, of the nonproprietary information submitted by the applicant and of any applicable preliminary determinations, including analyses of the effect on air quality.

(3) Public comment. No final decision on any application or action of any of the types described in subsection (1) of this section, shall be made until the public comment period has ended and any comments received have been considered. Unless a public hearing is held, the public comment period shall be the thirty-day period for written comment published as provided above. If a public hearing is held the public comment period shall extend through the hearing date and thereafter for such period, if any, as the notice of public hearing may specify.

(4) Public hearings. The applicant, any interested governmental entity, any group or any person may request a public hearing within the thirty-day period published as above. Any such request shall indicate the interest of the entity filing it and why a hearing is warranted. The department or cognizant local authority may, in its discretion, hold a public hearing if it determines there is a significant public interest. Any such hearing shall be held upon such notice and at such time and place as the department or cognizant local authority deems reasonable.

(5) Other requirements of law. Whenever other procedures permitted or mandated by law will accomplish the objectives of public notice and opportunity for comment served by this section, such procedures may be used in lieu of the provisions of this section.

(6) Public information. Copies of notices of construction, orders, and modifications thereof, not declared confidential by the applicant, which are issued hereunder shall be available for public inspection on request at the department or cognizant local authority.

NEW SECTION

WAC 173-403-141 CREDITABLE STACK HEIGHT AND DISPERSION TECHNIQUES.

(1) Applicability. These provisions shall apply to all stationary sources except:

(a) Stacks for which construction had commenced or dispersion techniques which were implemented on or before December 31, 1970, except where pollutants are being emitted from such stacks or such dispersion techniques are used by sources which were constructed, or reconstructed, or for which major modifications were carried out after December 31, 1970;

(b) Coal-fired steam electric generating units subject to the provisions of Section 118 of the Federal Clean Air Act, which commenced operation before July 1, 1957, and for whose stacks construction commenced before February 8, 1974;

(c) Flares;

(d) Open burning for agricultural or silvicultural purposes as covered under the smoke management plan;

(e) Residential wood combustion and open burning for which episodic restrictions apply.

These provisions shall not be construed to limit the actual height of a stack nor to prohibit the use of dispersion techniques.

(2) Prohibitions. No source may employ any of the following dispersion techniques or excess stack height, as explained below, to meet ambient air quality standards or PSD increment limitations.

(a) Excess stack height. Excess stack height is that portion of a stack which exceeds the greater of:

(i) Sixty-five meters, measured from the ground level elevation at the base of the stack; or

$$(ii) H_g = H + 1.5L$$

where: H_g = "good engineering practice" (GEP) stack height, measured from the ground level elevation at the base of the stack,

H = height of nearby structure(s) measured from the ground level elevation at the base of the stack,

L = lesser dimension, height or projected width, of nearby structure(s), subject to the proviso below.

"Nearby," as used in this subsection for purposes of applying the GEP formula means that distance up to five times the lesser of the height or the width dimension of a structure, but not greater than 0.8 kilometer (1/2 mile).

Proviso: EPA, the state, or local control agency may require the use of a field study or fluid model to verify the creditable stack height for the source. This also applies to a source seeking credit after the effective date of this rule for an increase in existing stack height up to that established by the GEP formula. A fluid model or field study shall be performed according to the procedures described in the EPA Guideline for Determination of Good Engineering Practice Height (Technical Support Document of the Stack Height Regulations). The creditable height demonstrated by a fluid model or field study shall ensure that the emissions from a stack do not result in excessive concentrations of any air pollutant as a result of atmospheric downwash, wakes, or eddy effects created by the source itself, nearby structures or nearby terrain features.

"Nearby," as used in this proviso for conducting a field study or fluid model, means not greater than 0.8 km, except that the portion of a terrain feature may be considered to be nearby which falls within a distance of up to ten times the maximum height of the feature, not to exceed two miles if such feature achieves a height 0.8 km from the stack that is at least forty percent of the GEP stack height or twenty-six meters, whichever is greater, as measured from the ground-level elevation at the base of the stack. The height of the structure or terrain feature is measured from the ground-level elevation at the base of the stack.

"Excessive concentration" is defined for the purpose of determining creditable stack height under this subsection and means a maximum ground-level concentration owing to a significant downwash effect which contributes to excursion over an ambient air quality standard. For sources subject to the prevention of significant deterioration (PSD) program (WAC 173-403-080 and 40 CFR 52.21) an excessive concentration alternatively means a maximum ground-level concentration owing to a significant downwash effect which contributes to excursion over a PSD increment. The emission rate used in this demonstration shall be the emission rate specified in the state implementation plan, or in the absence of such, the actual emission rate of the source. "Significant downwash effect" means a maximum ground-level concentration due to emissions from a stack due in whole or in part to downwash, wakes, and eddy effects produced by nearby structures or nearby terrain features which

individually is at least forty percent in excess of the maximum concentration experienced in the absence of such downwash, wakes, or eddy effects.

(b) Manipulation to increase plume rise. Increasing final exhaust gas plume rise by manipulating source process parameters, exhaust gas parameters, stack parameters, or combining exhaust gases from several existing stacks into one stack; or other selective handling of exhaust gas streams so as to increase the exhaust gas plume rise. This does not include:

(i) The reheating of a gas stream, following the use of a pollution control system, for the purpose of returning the gas to the temperature at which it was originally discharged from the facility generating the gas stream;

(ii) The merging of gas streams where:

(A) the source was originally designed and constructed with such merged gas streams, as demonstrated by the source owner or operator.

(B) After July 8, 1985, such merging is part of a change in operation at the facility that includes the installation of pollution controls and is accompanied by a net reduction in the allowable emissions of a pollutant. This exclusion from the description of "dispersion techniques" shall apply only to the emission limitation for the pollutant affected by such change in operation.

(C) Before July 8, 1985, such merging was part of a change in operation at the facility that included the installation of emissions control equipment or was carried out for sound economic or engineering reasons, and not primarily motivated by an intent to gain emissions credit for greater dispersion.

NEW SECTION

WAC 173-403-145 ADJUSTMENT FOR ATMOSPHERIC CONDITIONS. Varying the rate of emission of a pollutant according to atmospheric conditions or ambient concentrations of that pollutant is prohibited, except as directed according to air pollution episode regulations.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 173-403-140 USE OF DISPERSION TECHNIQUES.

NEW SECTION

WAC 50-12-120 PROMULGATION. The division of banking, hereinafter referred to as the "division," after due and proper notice, and pursuant to chapter 30.60 RCW hereby adopts and promulgates the following rules and regulations, effective January 1, 1986.

NEW SECTION

WAC 50-12-130 PURPOSE. This regulation is intended to encourage banks chartered under Title 30 RCW to help meet the credit needs of their local community or communities; to provide guidance to banks as to how the division will assess the records of these banks in satisfying their continuing and affirmative obligations to help meet the credit needs of the local communities, including low-income and moderate-income neighborhoods, consistent with safe and sound operation of those banks; and to provide for proper consideration of those records in connection with certain applications.

NEW SECTION

WAC 50-12-140 DEFINITIONS. For purposes of interpreting and administering the provisions and procedures contained herein, the definitions of terms used shall be identical to the corresponding definitions set forth in the Community Reinvestment Act of 1977, Public Law 95-128, sections 801-806, 12 USC 2901, et seq. and regulations promulgated pursuant thereto; provided, these definitions are not inconsistent with the context used, or otherwise defined, in this regulation.

The term "division" means the division of banking of the state of Washington. The term "supervisor" means the supervisor of banking.

NEW SECTION

WAC 50-12-150 ASSESSING THE RECORD OF PERFORMANCE. In connection with its examination of a bank, the division shall assess the record of performance of the bank in helping to meet the credit needs of its entire community, including low-income and moderate-income neighborhoods, consistent with safe and sound operation of the bank. The division will review the bank's Community Reinvestment Act statement(s) and any other written and signed reports, documents, or comments prepared or filed by the bank with the division, or one or more federal bank regulatory agencies, and will use this material as part of or in lieu of an investigation as set forth by RCW 30.60.010. The foregoing material, together with such additional information as may be deemed necessary and obtained by investigation performed by the division, will be considered in assessing the bank's record of performance, based upon the following factors:

(1) Activities conducted by the institution to ascertain credit needs of its community, including the extent of the institution's efforts to communicate with members of its community regarding the credit services being provided by the institution;

(2) The extent of the institution's marketing and special credit related programs to make members of the community aware of the credit services offered by the institution;

(3) The extent of participation by the institution's board of directors in formulating the institution's policies and reviewing its performance with respect to the purposes of the Community Reinvestment Act of 1977;

(4) Any practices intended to discourage applications for types of credit set forth in the institution's Community Reinvestment Act statement(s);

(5) The geographic distribution of the institution's credit extensions, credit applications and credit denials;

(6) Evidence of prohibited discriminatory or other illegal credit practices;

(7) The institution's record of opening and closing offices and providing services at offices;

(8) The institution's participation, including investments, in local community development projects;

(9) The institution's origination of residential mortgage loans, housing rehabilitation loans, home improvement loans, and small business or small farm loans within its community, or the purchase of such loans originated in its community;

(10) The institution's participation in governmentally insured, guaranteed, or subsidized loan programs for housing, small businesses, or small farms;

(11) The institution's ability to meet various community credit needs based on its financial condition, size, legal impediments, local economic condition, and other factors;

(12) Other factors that, in the judgment of the supervisor, reasonably bear upon the extent to which an institution is helping to meet the credit needs of its entire community.

NEW SECTION

WAC 50-12-160 RATING ASSIGNMENT. (1) Based upon the foregoing investigation and assessment, the supervisor shall annually assign to the bank a numerical community reinvestment rating based on a one through five scoring system in accordance with RCW 30.60-.010. Such numerical scores shall represent performance assessments as follows:

(a) Excellent performance:	1
(b) Good performance:	2
(c) Satisfactory performance:	3
(d) Inadequate performance:	4
(e) Poor performance:	5

(2) For each calendar year commencing after December 31, 1986, the most recent community reinvestment rating assigned to the bank by the supervisor shall be used as a basis for limiting the funds invested in real property and improvements thereof pursuant to RCW 30-.04.212. These investments shall be limited to a percentage of capital, surplus, and undivided profits, as follows:

(a) Excellent performance-rating (1):	10% limitation
(b) Good performance-rating (2):	8% limitation
(c) Satisfactory performance-rating (3):	6% limitation
(d) Inadequate performance-rating (4):	3% limitation
(e) Poor performance-rating (5):	no investment

No bank may at any time be required to dispose of any investment made in accordance with this section because the bank is not then authorized to acquire such investment, if such investment was lawfully acquired by the bank at the time of acquisition.

NEW SECTION

WAC 50-12-170 RATING FOR PERIOD JANUARY 1, 1986 THROUGH DECEMBER 31, 1986. For the period January 1, 1986 through December 31, 1986, the rating assigned to all state chartered banks shall be a "1"; provided, however, that if a bank has been assigned a CRA rating of 3 or less in the most recent compliance report prepared by the FDIC or the Federal Reserve, the division deems the ten percent limitation for this period to be excessive, and an unsafe and unsound banking practice, and the bank shall be allowed to invest only the amount which would be allowable pursuant to RCW 30.04.212 if the rating of the most recent compliance report of the FDIC or Federal Reserve were assigned to the bank for the period January 1, 1986 through December 31, 1986.

NEW SECTION

WAC 50-12-180 LIMITATION ON SINGLE INVESTMENT. The total investment by a bank in a single parcel of real property, and improvements thereon, shall not exceed twenty-five percent of the aggregate amount of such bank's real estate investments allowed by RCW 30.04.212.

NEW SECTION

WAC 50-12-190 INVESTMENT IN QUALIFYING COMMUNITY INVESTMENTS. (1) An amount equal to ten percent of the aggregate amount invested in real estate by a bank pursuant to RCW 30.04.212 shall be placed in qualifying community investments as defined in subsection (3) of this section.

(2) A qualifying community investment made by an entity that wholly owns a bank, is wholly owned by a bank, or is wholly owned by an entity that wholly owns the bank, shall be deemed to have been

made by a bank to satisfy the requirements of subsection (1) of this section.

(3) The term "qualifying community investment" means any direct or indirect investment or extension of credit made by a bank in projects or programs designed to develop or redevelop areas in which persons with low-incomes or moderate-incomes reside, designed to meet the credit needs of such low-income or moderate-income areas, or that primarily benefits low-income and moderate-income residents of such areas. The term includes, but is not limited to, any of the following investments within the state of Washington:

(a) Investments in governmentally insured, guaranteed, subsidized, or otherwise sponsored programs for housing, small farms, or business that address the needs of the low-income and moderate-income areas.

(b) Investments in residential mortgage loans, home improvement loans, housing rehabilitation loans, and small business or small farm loans originated in low-income and moderate-income areas, or the purchase of such loans originated in low-income and moderate-income areas.

(c) Investments for the preservation or revitalization of urban or rural communities in low-income and moderate-income areas.

The term does not include personal installment loans, or loans made for the purchase of, or secured by, an automobile.

NEW SECTION

WAC 50-12-200 CONSIDERATION OF PERFORMANCE RECORD IN MEETING COMMUNITY CREDIT NEEDS IN APPROVING AND DISAPPROVING APPLICATIONS. The division shall consider, among other factors, the record of performance of the applicant in helping to meet the credit needs of the applicant's entire community, including low-income and moderate-income neighborhoods in determining the approval or disapproval for the following applications:

- (1) For a new branch or satellite facility;
- (2) For a purchase of assets;
- (3) For a merger;
- (4) For an acquisition;
- (5) For authority to engage in a business activity;
- (6) For a conversion from a national bank to a state-chartered bank; and

(7) Such other application as the supervisor may consider appropriate.

The performance record need not be considered for subsections (2), (3), and (4) of this section where solvency and safety soundness of the bank is threatened. Assessment of an institution's CRA performance may be a basis for denying an application.

Purpose of the Proposed New Rules: WAC 388-17-500 provides a dispute resolution procedure for contractors dissatisfied with a local area agency on aging determination. WAC 388-17-510 provides a hearing procedure for an area agency on aging dissatisfied with a department determination on their plan.

The Reasons These Rules are Necessary: The rules provide a specific process to resolve problems rapidly and at the lowest possible level. Federal law, the Older Americans Act, section 307(a)(5) (which is codified in 42 USC 3001 et seq.) requires that the department provide an opportunity for an informal hearing. These rules provide the right to and procedures for a contested case hearing.

Statutory Authority: RCW 74.36.100 and 43.20A.550.

Summary of Rule Changes: WAC 388-17-500, local area agencies on aging must establish a complaint resolution procedure. One of their contractors who is not satisfied with the complaint resolution determination will have the right to a contested case (Administrative Procedure Act) hearing. The right to and procedures for the hearing are specified. WAC 388-17-510, an area agency on aging which is not satisfied with department decision on their plan has the right to a contested case hearing. The proposed rule specifies the right to and the hearing procedures.

People Responsible for the Drafting, Implementation, and Enforcement of the Rule: David L. Henry and Denny Allen, Office of Administrative Regulations and Hearings and Aging and Adult Services Administration, Mailstops OB-43 and OB-43G, telephone numbers (206) 753-3898 and (206) 753-4933.

WAC 388-17-500 is necessary to provide a fair, inexpensive, rapid remedy to dissatisfied contractors. If such a process is not in place immediately the number of contractors or the cost or quality of their services to clients served by the program may suffer. WAC 388-17-510 is necessary as a result of federal law, 42 USC 3001 et seq. as amended by Public Law 98-459.

This rule will have a positive impact on small business by providing an inexpensive and rapid contract dispute resolution procedure.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Public Assistance)**

[Order 2439—Filed November 10, 1986]

I, Lee D. Bomberger, acting director of the Division of Administration and Personnel, do promulgate and adopt at Olympia, Washington, the annexed rules relating to Agencies on aging—Administrative review process, new WAC 388-17-500 and 388-17-510.

I, Lee D. Bomberger, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is prior to 1986 a joint understanding between the Office of Hearings and the Aging and Adult Services Administration delegated the responsibility of conducting statutorily mandated hearings to the Office of Hearings. This year an administrative law judge determined that the Office of Hearings lacks jurisdiction to hear matters arising under section 307(a)(5) of the Older Americans Act. This decision puts the state in violation of the law. As applicants to provide a service are appealing local decisions to the state, the emergency adoption of this rule is required to provide a forum and bring the state into compliance with federal law. If no hearing process is implemented by early November, the state may face possible litigation from aggrieved applicants to provide services.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 70.38.030 which directs that the Department of Social and Health Services has authority to implement the provisions of chapter 70.38 RCW.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

APPROVED AND ADOPTED November 7, 1986.

AMENDATORY SECTION (Amending Order 2276, filed 8/30/85)

WAC 388-28-480 USE OF INCOME AND INCOME POTENTIALS—TYPES OF INCOME—EFFECT ON NEED. (1) An applicant or recipient whose nonexempt net monthly income ((for the month)) exceeds the monthly payment level plus authorized additional requirements is not eligible to receive assistance. Ineligibility exists whether the income is received weekly, biweekly, or monthly, except as specified in WAC 388-24-250 through 388-24-265.

(2) Treatment of income.

(a) The department shall determine the grant amount for the month the application is approved ((shall be determined)) by subtracting all net income, received or reasonably expected to be received during the calendar month, from the payment level plus authorized additional requirements. The remainder shall be prorated for the number of days after grant authorization. This prorated figure is the grant amount for the first month of eligibility.

(b) The department shall determine the grant amount for the month following the month of initial eligibility ((shall be determined)) by subtracting all net income, received or reasonably expected to be received during the calendar month, from the payment level plus authorized additional requirements. The remainder is the grant amount for the second month of eligibility.

(c) The department shall base the grant amount for the third month of assistance and subsequent months ((shall be based)) upon income received in the budget/report month. WAC 388-28-483(3) is an exception to this rule.

(3) Irregular or nonrecurring income.

(a) Irregular income up to five dollars per month received by a general assistance applicant or recipient ((may)) shall be disregarded toward((s)) meeting need ((by the local office)) if the probability exists that such future income will not be appreciable.

(b) Nonrecurring cash gifts received by an AFDC or RA applicant or recipient shall be disregarded when such gifts do not exceed thirty dollars per individual for any three-month period.

(4) Earned income credit (EIC) payments shall be considered earned income during the month received.

(5) Loans ((are not considered income, as defined in RCW 74.04.005(12), subject to the following restrictions:)).

(a) Any contractually agreed loan acquired by an applicant or recipient committing all funds for a specific

purpose other than current maintenance, and so expended, shall not be taken into account as income. The property used as collateral for the loan shall not be included in determining property reserves. The equity accumulated in the specified property shall be considered toward the resource ceiling.

(b) Any other loan, regardless of the loan's ability to meet current needs, shall not be taken into account as income when it is verified the following conditions are met:

(i) The terms of the loan are stated in a written agreement between the lender and the borrower; and

(ii) The agreement clearly specifies the obligation of the borrower to repay the loan. The agreement must include a repayment plan providing for installments of specified amounts to begin within ninety days of the receipt of the loan and continue thereafter on a regular basis until the loan is fully repaid.

(c) As part of the verification process, the recipient is required to submit loan contract papers or a written agreement setting forth the terms of the loan regarding the loan's amount and the repayment plan. The agreement must be signed by the lender and the recipient as parties to the agreement.

(6) Repayments to a recipient of money previously loaned by the recipient to another party shall not be taken into account as income, since the loan represents income or resources already considered in computing need. The facts of the loan must be verified. Consider any interest paid on the loan as newly acquired income.

(7) A gift in-kind, named as follows, supplied on condition the gift in-kind be used only in a manner or for a purpose specified in writing by the donor shall not be considered as a resource or as income available to meet need.

(a) Real or personal property, excluding cash and marketable securities, exempted for an applicant and within the ceiling values. Example: A home or a new furnace.

(b) Any item in the department's standards for additional requirements which is not a requirement for the recipient of such a gift. Example: Telephone service.

(2) For the first two months of initial eligibility, all income shall be budgeted prospectively, including income of an individual who is added to an existing assistance unit. (See subsection (3) of this section for exceptions.) The ((ESO)) department shall compute the

amount of the assistance payment based on the expected income and circumstances which will exist in the month for which the assistance payment is made.

(a) The department shall establish an overpayment ((shall be established)) if the income is underestimated.

(b) The department shall issue a corrective payment ((shall be made)) if the income is overestimated.

(b) Assistance had been suspended due to an extra ((payday)) paycheck for the month prior to the month of application, assistance had been terminated at the end of the month of suspension, and the applicant's circumstances for the initial authorization month have not changed significantly from those prior to termination.

(d) An individual having had income deemed to an assistance unit is added to that assistance unit.

(e) Assistance had been suspended for the payment month due to ineligibility in the budget month.

(a) The ((ESO)) department shall compute the amount of assistance based on the income which existed in the second month preceding the month for which the payment is made.

(c) ((Nonrecurrent)) Noncontinuous income budgeted prospectively during the first two months of eligibility shall not be budgeted for the first and second payment month for which retrospective budgeting is used.

(d) Definitions:

(i) The calendar month for which payment is made shall be called the payment month.

AMENDATORY SECTION (Amending Order 2276, filed 8/30/85)

WAC 388-28-484 TREATMENT OF NEWLY ACQUIRED NONEXEMPT INCOME AND RESOURCES. (1) Income affects the grant amount according to the provisions of WAC 388-28-483.

(2) When the value of the income is taken into account in the assistance payment as specified in WAC 388-28-483, the following rules apply:

(a) If the income value plus any other income amounts to less than the payment standard plus authorized additional requirements and is recurrent or nonrecurrent, assistance is continued in the amount of the difference.

Ineligibility shall exist for the number of full months derived by dividing this total income by the need standard plus authorized additional requirements. A minimum period of ineligibility shall be one month.

(i) Any income remaining after this calculation is treated as income received in the first month following the period of ineligibility.

(ii) The period of ineligibility may be shortened when the following conditions are met:

(A) An event occurs which, had the assistance unit been receiving assistance, would result in an increase in the need standard, or

(B) The income received, or any part thereof, has become unavailable to the members of the assistance unit for reasons beyond their control, or

(C) Members of the assistance unit incur, become responsible for, and pay medical expenses.

(D) Assistance is authorized only after the event in subsection (2)(b)(ii)(A), (B), or (C) of this section has been verified and current eligibility has been established.

(c) ((H)) The department shall suspend a general assistance grant when a recipient's nonrecurrent income equals or exceeds one month's payment level plus authorized additional requirements ((for general assistance)), but is less than two months' payment level plus authorized additional requirements minus other income(,)).

(i) The recipient's grant is ((ineligible for a grant)) suspended from the effective date specified in WAC 388-28-483((, and his or her grant is suspended)).

(ii) The ((suspension)) suspense period is determined exactly, that is, up to the date of the absorption of the income.

(d) If the income is recurrent and equal to or in excess of one month's payment level plus authorized additional requirements minus other income, the recipient is ineligible from the effective date specified in WAC 388-28-483 and the grant is terminated, except for persons in institutions other than nursing homes as provided in WAC 388-34-160.

(e) For general assistance if the income is recurrent or nonrecurrent and its value is in excess of two months' payment level plus authorized additional requirements minus other income, the recipient is ineligible from the effective date specified in WAC 388-28-483 and the grant is terminated. Ineligibility shall continue for two months. The period of ineligibility, however, may be reduced if the applicant has verifiable expenses such as medical care, unforeseen disaster or other changes in circumstances making it impossible for him or her to live on his or her resource for the two-month period of ineligibility. The eligibility of a former recipient reapplying

shall be determined on the same basis as a new applicant.

(3) If income is not taken into account in assistance payments but is subsequently discovered, an overpayment shall be established according to chapter 388-44 WAC.

(4) If a general assistance recipient has been determined to be ineligible for a current or future period of time and his or her grant will be suspended or terminated for such period of time due to either newly acquired income, or transfer of property, and is in need during such period of ineligibility, assistance may be granted within the limits of the rule in WAC 388-28-464.

(5) A person acquiring income during suspended status shall be treated as a recipient in terms of eligibility, not as an applicant.

(6) Rules and procedure in chapter 388-44 WAC are followed in respect to overpayment.

(7) An applicant or recipient whose nonexempt gross income exceeds one hundred eighty-five percent of the standard of need for the appropriate household size plus additional requirements authorized for that assistance unit, is not eligible for AFDC or refugee assistance from the date specified in WAC 388-28-483. The income of all members of the assistance unit and the income of natural, adoptive, or stepparents of children in the assistance unit residing in the same household, shall be considered in this test except for income identified in WAC 388-28-575 and in subsection (7)(a) and (b) of this section.

(a) In determining the total income of the family, the earned income of a child who is a full-time student is excluded for six consecutive months per calendar year.

(b) The first fifty dollars per month of the current monthly support obligation of any child support collected on the family's behalf or received by the family.

(c) Gross income shall be defined as all income not specifically exempted by rule or regulation before applicable program disregards are applied.

(d) Net income shall be defined as gross income less applicable disregards and deductions for which the applicant or recipient is eligible.

(8) Income taken into account in computing financial need according to subsection (2) of this section if retained by a GA-U recipient does not affect his or her eligibility unless the amount retained at the time of the next periodic review exceeds the exempt property holdings permitted for an applicant. In this event the rule on nonexempt resources or income pertaining to an applicant is applied.

WAC 388-28-535 NET CASH INCOME—DETERMINATION—DEDUCTIONS FROM GROSS INCOME—INCOME OF CHILD. (1) In determining the amount of a child's earned income available to meet the current need of the assistance unit of which he or she is a member, the following rules apply:

Such income includes earned income, allotments, retirement, survivors and disability insurance, veterans' benefits, court-ordered support payments, trust fund payments, or other income legally designated for the benefit of an individual child. Such income of a child ineligible to be included as a member of the assistance unit shall be considered as follows:

(a) If the child is ineligible due to noncooperation with the ((work incentive or)) Washington state employment ((and training)) opportunities programs, or with child support enforcement if the child is a minor parent, such child's income shall be considered available to meet the need of the assistance unit ((to the extent it exceeds a one-person payment level));

(b) If the child is ineligible due to any other factor of eligibility, none of the child's income shall be considered available to meet the need of the assistance unit.

(3) A stepchild may receive income as specified in subsection (2) of this section. According to WAC 388-24-050(3), when the assistance unit does not include a stepchild's sibling or half-sibling, the family shall have the option to:

AMENDATORY SECTION (Amending Order PT 86-3, filed 8/6/86)

WAC 458-61-050 PAYMENT OF TAX—COUNTY TREASURER AS AGENT FOR THE STATE. (1) The tax imposed by RCW 82.45.060 and herein shall be paid to and collected by the treasurer of the county within which is located the real property which was sold.

(2) The county treasurer shall act as agent for the department in carrying out the provisions of chapter 82.45 RCW and these rules.

(3) The county treasurer shall cause a stamp evidencing satisfaction of the tax lien to be affixed to the instrument of sale or conveyance prior to its recording or to the real estate excise tax affidavit in the case of used mobile home sales. Such stamp shall bear reference to the affidavit number, date and amount of the payment and shall be initialed by the person affixing said stamp. The county treasurer shall not affix such stamp to the instrument of sale or conveyance unless one of the following criteria is met:

(a) Continuance of use has been approved by the county assessor under chapter 84.33 or 84.34 RCW;

(b) Compensating or additional taxes have been collected as required by RCW 84.33.120 (5)(b) and (e), 84.33.140 (1)(c), 84.34.108 (1)(c), 84.36.812, or 84.26.080; or

(c) Property is not so classified, designated, exempted or specially valued.

Delay in either securing the approval of continuance of use or payment of the compensating tax does not forestall the real estate excise tax delinquent penalty imposed by WAC 458-61-090. However, the taxpayer may pay the real estate excise tax and thus preclude any furtherance of the real estate excise tax delinquent penalty. (See WAC 458-61-030 (1)(m).)

(4) A receipt issued by the county treasurer for the payment of the tax shall be evidence of the satisfaction of the lien imposed under RCW 82.45.070 and these rules and may be recorded in the manner prescribed for recording satisfaction of mortgages.

(5) No lease, assignment of lease nor memorandum of either lease or assignment of lease, nor instrument of sale or conveyance evidencing a sale subject to the tax shall be accepted by the county auditor for filing or recording until the tax shall have been paid and the stamp affixed thereto. In the case the tax is not due on the transfer, the instrument shall not be so accepted until suitable notation of such fact has been made on the instrument by the county treasurer. In addition, no instrument of conveyance shall be filed or recorded by the county auditor or recorder if such property is classified or designated as forest land under chapter 84.33 RCW ((or)), classified as open space land, farm and agricultural land, or timber land under chapter 84.34 RCW or receiving a special valuation as historic property under chapter 84-26 RCW unless the compensating or additional tax has been paid, or the new owner shall have signed a notice of continuance which shall either be on the excise tax affidavit or attached thereto.

AMENDATORY SECTION (Amending Order PT 86-3, filed 8/6/86)

WAC 458-61-080 AFFIDAVIT REQUIREMENTS. (1) Except for the transfers listed under subsection (2) of this section, the real estate excise tax affidavit shall be required for all transfers of real property including, but not limited to, the following:

(a) Conveyance from one spouse to the other as a result of a decree of divorce or dissolution of a marriage or in fulfillment of a property settlement agreement incident thereto;

(b) Conveyance made pursuant to an order of sale by the court in any mortgage or lien foreclosure proceeding;

(i) A declaration of forfeiture of a real estate contract;

(j) Conveyance of development rights or air rights.

(2) The real estate excise tax affidavit shall not be required for the following:

(a) Conveyance of cemetery lots or graves;

(b) Conveyance for security purposes only and the instrument states on the face of it:

(g) A seller's assignment of deed and contract;

(3) County treasurers shall not accept incomplete affidavits. It is the taxpayers' responsibility to furnish complete documentation for claimed tax exemptions. It is the county treasurers' responsibility and authority to require that such documentation, as required by this chapter, shall be furnished by the taxpayers or their agents.

(a) Among other requirements set forth in WAC 458-61-030(1), all affidavits which state claims for tax exemption must show:

(i) Current assessed values of parcels involved as of transaction date; and

(ii) Complete reasons for exemptions, including reference to the specific tax exemption in this chapter, (in all cases where the exemption is based upon a prior payment of the tax, the prior payment date, amount and affidavit number must be provided on the current affidavit. A quitclaim deed is a conveyance instrument. It is not, in itself, a reason for tax exemption. A valid reason for the exemption must be shown on the affidavit. Likewise statements such as "to clear title only" and "no consideration" are not complete reasons for tax exemption.

(b) When the transfer of property is to two or more grantees, the affidavit must clearly state the relationship between them such as joint tenants, tenants in common, partners, etc., and the form and proportion of interest that they are each acquiring.

(c) In the case of a used mobile home that is sold with the land upon which it is located, the county treasurer may require the completion of either two affidavits, both real and mobile home, or a single real property affidavit. At the county treasurer's option, a separate mobile home affidavit may not be required if the real property affidavit lists the make, model, year, size and serial number of the unit. Such information should be contained as a separate item within the legal description portion of the affidavit.

AMENDATORY SECTION (Amending Order PT 86-3, filed 8/6/86)

WAC 458-61-210 ASSIGNMENTS—PURCHASERS. (1) The real estate excise tax does not apply to the following types of purchaser's assignments, provided that no consideration passes to the grantor ((and further provided that there is no affiliation between the grantor and grantee)):

(a) Cancellation or forfeiture of the vendee's interest in a contract of sale, deed in lieu of foreclosure of mortgage or deed in lieu of forfeiture of a real estate contract all of which are being conveyed to the lien holder as the result of default of the obligation;

(b) Assumption by a grantee of the balance owing on an existing obligation which is secured by a mortgage, deed of trust or real estate contract where the grantee has become personally and principally liable for ((the mortgage or contractual)) payment of that obligation ((whether or not a novation has occurred)).

The real estate excise tax affidavit is required for each of the above. If the transfer is an assumption under (b) of this subsection, the grantor must furnish the supplemental statement, as provided by WAC 458-61-150, signed by both the grantor and grantee that no additional consideration of any kind is being paid by the grantee to the grantor ((or to any party other than current lienholders)). (See WAC 458-61-150)

The tax exemption provided in (b) of this subsection does not apply to the following transfers:

The measure of the real estate excise tax is the sum of the consideration paid or contracted to be paid to the grantor of such assignment plus the unpaid principal balance due on the assigned mortgage or real estate contract. (Note: The consideration passing to the assignor of such interest in real property nullifies the exemptions granted in subsection (1) of this section, because each of these exemptions is granted upon the condition that no consideration passes to the transferee of the interest of real property.)

NEW SECTION

WAC 458-61-335 DEVELOPMENT RIGHTS AND AIR RIGHTS. The real estate excise tax applies to the sale of both development rights and air rights. The real estate excise tax affidavit must be completed for the transfer of development rights and air rights whether or not a taxable sale has occurred.

EXECUTIVE ORDER
OFFICE OF THE GOVERNOR**
[EO-86-06]

**STATE ADMINISTRATION OF FEDERALLY
MANDATED PRIVATE ACTIVITY BOND STATE
CEILING VOLUME CAP**

WHEREAS, on December 17, 1985, the United States House of Representatives passed a bill entitled the "Tax Reform Act of 1985" (the "House Bill") which, although not enacted into law, created a category of tax-exempt obligations defined as "nonessential function bonds" and imposed an annual state-by-state ceiling (the "House Ceiling") on the issuance of such nonessential function bonds and certain portions of essential function bonds (together, "nonessential function bonds"), which House Ceiling initially was equal to the greater of (a) \$200 million or (b) an amount equal to \$175 multiplied by a state's population and which was applicable to Nonessential Function Bonds issued after December 31, 1985; and

WHEREAS, the House Bill would have, if enacted, allocated the House Ceiling to governmental units within the state having authority to issue Nonessential Function Bonds, and would have further allocated the House Ceiling among the different types of Nonessential Function Bonds unless the state provided a different formula of allocation by law; and

WHEREAS, the House Bill provided that a state may by law, which may be enacted before passage of the House Bill, provide for a different formula for allocating the House Ceiling among the Issuers of Nonessential Function Bonds; and

WHEREAS, in response to the House Bill, the state enacted chapter 247, Laws of 1986 (the "Interim Allocation Act"), authorizing the Governor to establish by executive order a different formula for allocation of the House Ceiling; and

WHEREAS, pursuant to the Interim Allocation Act, the Governor promulgated Executive Order EO-86-04 on May 15, 1986, establishing a different formula for allocation of the House Ceiling; and

WHEREAS, subsequent to the promulgation of Executive Order EO-86-04, the United States Senate passed an amendment to the House Bill (the "Senate Bill") in the

nature of a substitute, which, if enacted into law, would have retained the annual state-by-state ceiling on the issuance of private activity bonds contained in the Internal Revenue Code of 1954 (the "1954 Code"); and

WHEREAS, a Conference Committee comprised of members of the United States House of Representatives and the United States Senate reconciled the differences between the House Bill and the Senate Bill and prepared a new bill entitled the "Tax Reform Act of 1986" (the "1986 Code"), which has been enacted into law; and

WHEREAS, the 1986 Code imposes an annual state-by-state ceiling (the "State Ceiling") on the issuance of tax exempt private activity bonds, certain portions of governmental bonds and other bonds described in section 1317(25) of the 1986 Code (together, "Private Activity Bonds"), applicable to Private Activity Bonds issued after August 15, 1986, which is different from either the House Ceiling or the ceiling imposed by the 1954 Code and which initially is equal to the greater of (a) \$250 million or (b) an amount equal to \$75 multiplied by a state's population and drops in calendar years after 1987 to the greater of (a) \$150 million, or (b) an amount equal to \$50 multiplied by a state's population; and

WHEREAS, the 1986 Code allocates the State Ceiling to governmental units within the state having authority to issue Private Activity Bonds (the "Issuers") unless the state provides by law a different formula of allocation; and

WHEREAS, the 1986 Code provides that a state may by law, which may be enacted before passage of the 1986 Code, provide for a different formula for allocating the State Ceiling among Issuers; and

WHEREAS, the Interim Allocation Act also authorizes the Governor to establish by executive order a formula for allocation of any volume limitation provided by other federal legislation, such as the 1986 Code, which is different from that established for the House Ceiling; and

WHEREAS, the State Ceiling for Private Activity Bonds under the 1986 Code is smaller and more restrictive than the House Ceiling and necessitates this Executive Order to provide an allocation formula for the remainder of 1986; and

WHEREAS, the method of allocation of the State Ceiling set forth in the 1986 Code may restrain the issuance of Private Activity Bonds for qualified facilities and other eligible uses; and

WHEREAS, the State has, pursuant to chapter 446, Laws of 1985 (the "1985 Allocation Act"), previously provided a formula for allocation of the volume limitations contained in the 1954 Code; and

WHEREAS, pursuant to its terms, the 1985 Allocation Act, applies only to those private activity bonds which were defined in the 1954 Code on the effective date of such legislation, as well as private activity bonds which were defined in any later amendments to the 1954 Code, but only if such amendments are approved by the State Community Economic Revitalization Board ("CERB"); and

WHEREAS, the change in 1954 Code's definition of private activity bonds effected by the 1986 Code have not been approved by CERB, and therefore the formula for allocating any limitation on private activity bond volumes contained in the 1985 Allocation Act is of no application to the volume limitation provisions affecting Private Activity Bonds as redefined in the 1986 Code; and

WHEREAS, the method of allocation of the federal limitations contained in the 1985 Allocation Act, if it were made applicable to Private Activity Bonds as redefined in the 1986 Code, might restrain the issuance of Private Activity Bonds for qualified facilities and other eligible uses; and

WHEREAS, it is in the best interests of the citizens of the state of Washington to have an orderly system for the allocation of the State Ceiling that is flexible enough to meet the diverse needs of the citizens of the state but at the same time is efficient enough to meet the deadlines required by the 1986 Act; and

WHEREAS, it is in the best interests of the citizens of the state of Washington to promote industrial and economic development and encourage private investment in our state's economy, while preserving the ability of governmental units to finance public improvements, housing, student loans, and other facilities;

NOW, THEREFORE, I, Booth Gardner, Governor of the State of Washington, do hereby order:

If the amount of bonds actually issued is greater than the allocation, the entire allocation shall be disallowed.

Section 3.

- A. Any portion of the State Ceiling which has not been utilized by 12:00 noon on December 31, 1986, up to and including the first \$15,000,000 shall automatically be reallocated to the Washington Student Loan Guarantee Association for the purpose of issuing qualified student loan bonds, and shall be considered a "carryforward" as described in section 146(f) of the 1986 Code; and

The Department of Community Development is requested to work closely with all potential Issuers, the Department of Trade and Economic Development and the Office of Financial Management on this interim study and to work closely with the appropriate legislative committees on the development of this interim study to assist the Fifty-first Legislature to be fully informed on this issue in order to allow them to address the issue of future allocation systems as soon in the 1987 legislative session as possible.

Section 6. For the purposes of the 1986 Code, this Executive Order shall be considered a gubernatorial proclamation.

Section 7. Executive Order EO-86-04 is hereby rescinded.

APPENDIX "A"

AMENDATORY SECTION (Amending Order R-242, Cause No. U-85-56, filed 11/7/85)

WAC 480-120-088 AUTOMATIC DIALING-ANNOUNCING DEVICES. An automatic dialing-announcing device (ADAD) may not be operated while connected to the telephone network, except under the following conditions:

(1) An ADAD may be used pursuant to a prior agreement from the called party that he or she desires to receive such telephone communication; or

(2) An ADAD may be used if the recorded message is preceded by an announcement made by a human operator who:

(a) States the nature and length in minutes of the recorded message; and

(b) Identifies the caller and the individual, business, group, or organization for whom the call is being made and a telephone number to which a return call can be placed; and

(c) Asks the called party whether he or she is willing to listen to the recorded message; and

(d) Disconnects from the called party's line if the called party is unwilling to listen to the recorded message; or

(3) Except for purposes of commercial solicitation, an ADAD may be used if the recorded message:

(a) Identifies the individual, business, group, or organization for whom the call is being made, the nature

and length of the call, and a telephone number to which a return call may be placed; and

(b) Automatically disconnects the telephone connection within two seconds after the called party hangs up the receiver.

((e))) (4) An emergency ADAD may be connected to the telephone network only under the following conditions:

((f))) (a) The ADAD contains sensors that will react only to a steady tone of at least four seconds duration, broadcasts only on frequencies allocated by the FCC for emergency services, and is designed to prevent accidental triggering of emergency calls.

((f))) (b) The ADAD provides some audible tone or message that alerts the user that the device has been activated and will automatically dial the preprogrammed emergency number unless manually deactivated within thirty to forty-five seconds.

((f))) (c) The ADAD provides for disconnection within two seconds when the called party performs a predetermined function.

((f))) (d) The ADAD satisfies applicable state safety requirements.

((f))) (e) The user registers the instrument with and receives written approval for its use from the emergency services to which an automatic call would be directed, and secures from such services an approved telephone number or numbers to be programmed into the instrument: PROVIDED, That the user shall not program the instrument to dial police or 911 emergency response numbers.

(5) As to any ADAD, provision must be made to preclude the dialing of unlisted telephone numbers and the dialing of designated public service emergency telephone numbers as listed in published telephone directories and to preclude the ADAD from dialing any telephone number before 8:30 a.m. or after 9:00 p.m., except where the ADAD is designed to deliver a message in response to an emergency situation, and the user obtains approval from any public emergency service agency or telephone subscriber prior to using the ADAD to dial such agency or subscriber.

Before any ADAD, other than an ADAD designed to deliver a message in response to an emergency situation, may be operated while connected to the telephone network, the potential user of such device shall notify the telecommunications company in writing of the intended use of the ADAD equipment. The written notice shall contain a statement of the calendar days and clock hours during which the ADAD(s) will be used and include an estimate of the expected traffic volume in terms of message attempts per hour and average length of completed message. In addition, each utility shall maintain records of such ADAD equipment connected to their facilities and provide the commission with quarterly reports detailing the individual business, group, or organization operating such ADAD, their address and associated telephone number.

The telecommunications company shall review the statement of intended use of ADAD equipment to determine whether there is a reasonable probability that use

of the equipment will cause overload of the utility's facilities. If the utility finds that a reasonable probability exists that the ADAD operation will overload its network, the utility may refuse to provide connections for the ADAD(s) or provide them subject to conditions necessary to prevent an overload. If, after service has been established, it is determined that the volume of calling originated by the ADAD is degrading the service furnished to others, the utility may suspend or terminate the service after five days' notice to the subscriber. If use of the ADAD creates overloading in a telecommunications company switching office, the utility may suspend or terminate the service with no prior notice.

The telephone subscriber who uses ADAD equipment shall notify the utility in writing within thirty days of any changes in the ADAD operation which result in either an increase or decrease in traffic volume.

Except for an ADAD designed to deliver a message in response to an emergency situation, no ADAD shall be connected to the network unless the subscriber furnishes the utility with a written certification that the equipment can effectively preclude calls to unlisted telephone numbers, to designated public service emergency numbers, or to any number or series of telephone numbers on a list of telephone subscribers who may be in the future designated by the utility, by regulation or by statute, as subscribers who are not to receive ADAD calls.

The telecommunications company shall suspend or terminate the telephone service of any subscriber who uses an ADAD in violation of the provisions of this rule provided that the subscriber is given eight business days' notice or with no prior notice if use of the ADAD creates overloading in a telecommunications company switching office.

NEW SECTION

WAC 480-120-087 TELEPHONE SOLICITATION. (1) As used in this section, "telecommunications company" is limited to telecommunications companies providing local exchange telephone service.

(2) Telecommunications companies shall notify their customers of their rights under chapter 277, Laws of 1986, with respect to telephone solicitation. Notice shall be provided by conspicuous publication of the notice in the consumer information pages of local telephone directories. The notice shall clearly inform subscribers of their rights under the law and shall, at a minimum, include the following information:

(a) Under Washington law residential subscribers have the right to keep telephone solicitors from calling back. A solicitor is someone who calls you to ask you to buy something or donate something.

(b) The law requires that solicitors identify themselves, their company or organization, and the purpose of the call within the first thirty seconds. If at anytime during the conversation you say you do not want to be called again or want to have your name and number removed from the calling list, the company or organization may not have a solicitor call you for at least one year and may not sell or give your name and number to another company or organization.

(c) The attorney general's office is given the authority to enforce this law. In addition, individuals may sue the solicitor for a minimum of one hundred dollars per violation. If the suit is successful, the individual will be able to recover money spent on court and attorney's fees.

To file a complaint, or request more information on the law, please write to the Fair Practices Office listed below, or between 12:00 noon and 5:00 p.m., weekdays, call the Attorney General's Office, Fair Practices Division, at its toll-free number: 1-800-551-4636. If you are filing a complaint, please include as much information as possible about the name and address of the company or charity, the time you received the calls, and the nature of the calls.

WAC 286-26-010 SCOPE OF CHAPTER. This chapter contains rules affecting the eligibility of agencies to share in nonhighway road and off-road vehicle funds used for nonhighway road and off-road vehicle trails and areas.

Such courses will be designed to include ORV trail or area characteristics such as sharp turns, jumps, soft tread material, dips, or other obstacles found in more natural settings. Race courses which are paved and designed primarily for other vehicles, such as go-karts and formula cars, constitute an inappropriate use of nonhighway road and ORV funds.

(2) Project contract/intergovernmental agreement (supplemental agreement). For every funded project, a project contract or intergovernmental agreement (supplemental agreement) must be executed (as applicable). The project contract/intergovernmental agreement (supplemental agreement) shall be prepared by the interagency committee staff subsequent to approval of the project by the committee. The director shall execute the contract/intergovernmental agreement (supplemental agreement) on behalf of the interagency committee and tender the document to the sponsoring agency for execution. Upon execution by the sponsoring agency, the parties will thereafter be bound by the project contract/intergovernmental agreement (supplemental agreement). COMMISSION

[Filed November 17, 1986]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington Utilities and Transportation Commission intends to adopt, amend, or repeal rules relating to common and contract carrier equipment leasing, WAC 480-12-210, Cause No. TV-2015. The proposed amendatory section is shown below as Appendix A. Written and/or oral submissions may also contain data, views, and arguments concerning the effect of the proposed amendment on economic values, pursuant to chapter 43.21H RCW and WAC 480-08-050(17). Commenters are invited to address other aspects of the leasing rule;

that the agency will at 9:00 a.m., Wednesday, January 21, 1986 [1987], in the Commission's Hearing Room, Second Floor, Chandler Plaza Building, 1300 Evergreen Park Drive South, Olympia, WA, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 81.01.040 [80.01.040] and 81.80.290.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before December 24, 1986. Reply comments may be filed on or before January 14, 1987.

Dated: November 17, 1986
 By: Paul Curl
 Acting Secretary

STATEMENT OF PURPOSE

In the matter of amending WAC 480-12-210 relating to common and contract carrier equipment leasing.

The rules proposed by the Washington Utilities and Transportation Commission are to be promulgated pursuant to RCW 81.01.040 [80.01.040] and 81.80.290 which direct that the commission has authority to implement the provisions of chapter 81.80 RCW.

The rules proposed by the Washington Utilities and Transportation Commission are designed to amend the equipment leasing rule to allow lease compensation to be based upon a division of revenue, and to require specificity in the manner in which revenues, expenses, and costs are allocated as between lessors and lessees. Commenters are invited to address other aspects of the leasing rule.

Paul Curl, Acting Secretary, Chandler Plaza Building, 1300 Evergreen Park Drive South, Olympia, Washington, phone (206) 753-6451, and members of his staff were responsible for the drafting of the proposed

rules and will be responsible for implementation and enforcement of the proposed rules.

The proponent of the rules is the Washington Utilities and Transportation Commission.

There are no comments or recommendations being submitted inasmuch as the proposal is pursuant to legislative authorization reflected in RCW 80.01.040 and 81.80.290.

The rule change is not necessary as the result of federal law, or federal or state court action.

The rule change proposed will affect no economic values. The economic impact of the proposal, for purposes of the Regulatory Fairness Act, chapter 19.85 RCW, has been considered. The rule amendment, if adopted, will place no greater a burden upon existing businesses than the existing rule. The lease document will in many cases be more detailed than previously required, but the detailed information to be reported can be accomplished in a check-list fashion, and each item would have been the subject of previous negotiation under either the existing or proposed rule. Accordingly, it is believed that the economic impact of compliance with the proposed rule is negligible.

This certifies that copies of this statement are on file with the commission, are available for public inspection, and that three copies of this statement are this date being forwarded to the Joint Administrative Rules Review Committee.

APPENDIX "A"

AMENDATORY SECTION (Amending Order R-151, Cause No. TV-1373, filed 9/17/80)

WAC 480-12-210 LEASING. Other than equipment exchanged between motor common carriers in interchange service, as provided in WAC 480-12-155, common or contract carriers may perform common or contract transportation in or with equipment which they do not own only in accordance with this leasing rule. The arrangement for such equipment shall contain the provisions provided for in this rule and be prepared in the manner so provided, and the parties to the lease shall observe such provisions and manner of preparation. Any failure to so observe the provisions of the lease and/or the manner of preparation shall be a violation of this rule.

(1) Contract requirements.

The contract, lease, or other arrangement for the use of such equipment shall:

(a) Be made between the common or contract carrier and the owner of the equipment;

(b) Be in writing and signed by the parties thereto, or their regular employees or agents duly authorized to act for them in the execution of contracts, ((for)) leases, or other arrangements;

(c) Specify the period for which it applies which shall not be less than thirty days when the equipment is to be operated for the common or contract carrier by the owner, or by an employee of the owner; PROVIDED, That for good cause shown the commission may, by order, grant a waiver of this subdivision and of ((subdivision)) (e) of this subsection to the extent of permitting leases of less than thirty days duration in connection with equipment operated by the owner or by an employee of the owner;

(d) Provide for the exclusive possession, control and use of the equipment and for the complete assumption of responsibility in respect thereto by the lessee for the duration of said contract, lease, or other arrangement, except, however, in the case of long term leases providing for intermittent operations entered into between household goods carriers authorized for the intrastate transportation of household goods as defined by this commission, such provisions need only apply during the period the equipment is operated by or for the lessee((:)). The lease shall be specific as to the responsibility of each party thereto as to fuel expense; all taxes related to equipment operation; permits of all types; tolls; ferry charges; detentions and accessorial services; base plates and

licenses; tires; oil; parts; maintenance; empty miles; major and minor repairs; principal and interest on any loans secured by the equipment; property, liability, fire, theft, collision, and comprehensive insurance; and any other vehicle-related expense. All of the above expense items shall be specifically set forth and allocated between the lessor and lessee in the lease document.

Control of permit operations using the leased equipment must clearly reside with the lessee, and the manner in which the responsibility for expenses is allocated must clearly show such control. However, under any lease arrangement, the lessee shall assume full responsibility for compliance with all applicable safety rules and regulations pertaining to the operation of leased vehicles subject to this rule, and shall provide insurance as specified in WAC 480-12-350. In addition, the lessee shall bill and collect tariff charges.

(e) Provide that during the period of the lease, contract, or other arrangement the driver of the leased vehicle shall be to the lessee as servant to master and the driver shall be on the payroll of the lessee, and shall be paid by the lessee, except that in the case of a long term lease entered into by a common carrier of mobile homes, the driver may be the owner of the equipment or an employee of the owner;

(f) Specify the compensation to be paid by the lessee for the rental of the leased equipment. Such compensation shall be a specified sum per period of time, i.e. per month, per week or a specified sum per period of time plus a specific sum per mile of use. The amount of compensation specified and accordingly paid shall not be based upon a division of revenue, except such method of compensation shall be permissible (i) between authorized carriers of household goods when the leased equipment is used for the transportation of household goods as defined by this commission and (ii) between an authorized common carrier of mobile homes and an owner of equipment under a long-term lease);

(g) Specify the time and date or the circumstances on which the contract, lease, or other arrangement begins and the time or the circumstances on which it ends;

(h) Be executed in quadruplicate and submitted to the commission for approval. The approved original shall be retained by the common or contract carrier in whose service the equipment is to be operated, one approved copy shall be retained by the owner of the equipment, one approved copy shall be carried on the equipment specified therein during the entire period of the contract, lease or other arrangement, and one approved copy shall be retained in commission files, except that (i) a master lease agreement outlining in detail the leasing arrangements between specifically named parties may be filed for approval in lieu of separate leases in connection with each occurrence, and that (ii) leases covering transportation in interstate commerce need not be filed: PROVIDED, That leased equipment is not acquired and operated under the provisions of ((subdivision)) (i) of this subsection;

(i) Where the leased equipment is acquired and operated by the lessee on a long term lease pursuant to rules and regulations of the interstate commerce commission governing such a lease, and the operation of the leased equipment is primarily in interstate commerce not performed wholly within the bounds of this state, and the use of such equipment in intrastate commerce has an immediate prior and immediate subsequent movement in interstate commerce from or to points without this state, the operation of such equipment may be governed by rules and regulations of the interstate commerce commission governing such a lease, PROVIDED, That the total annual use in intrastate commerce does not exceed ((+5%)) fifteen percent as compared to its use in interstate commerce, and foregoing provision of ((subdivisions)) (a), (b), (c), (d), (e), and (f) of this ((section)) subsection shall not apply. For purposes of this subdivision "immediate" shall mean there shall be no haul between the initial qualifying interstate movement and the intrastate haul nor between the intrastate haul and the subsequent interstate movement.

Common and contract carriers wishing to operate under the provisions of this subdivision shall apply to the commission for permission to do so, setting forth facts supporting the application.

(2) Identification.

The common or contract carrier acquiring the use of equipment under this rule shall properly and correctly identify the equipment as being operated by the lessee during the period of the lease, contract, or other arrangement, in accordance with the requirements of WAC 480-12-150.

If a removable device is used to identify the lessee as the operating carrier, such device shall be on durable material such as wood, plastic, or metal.

The common or contract carrier operating equipment under these rules shall remove any legend showing it as the operating carrier displayed on such equipment, and shall remove any removable device showing it as the operating carrier before relinquishing possession of the equipment.

(3) Rental of equipment to private carriers, shippers, contractors and combination-of-service-carriers.

(a) Unless such service is specified in their operating authorities, common or contract carriers shall not rent equipment with drivers to private carriers or shippers.

(b) Common or contract carriers shall not rent, contract or lease, or by other arrangement furnish, equipment without drivers to private carriers or shippers without first having obtained approval of the rental contract from this commission and, in this connection, the commission will examine the terms of the rental agreement and all facts and circumstances surrounding it to determine the effect of the lease insofar as established rates and operating authority is concerned.

(c) Dump trucks and logging trucks shall not be leased or rented by common or contract carriers to construction contractors, loggers, combination-of-service carriers or other parties engaged in logging and construction operations: PROVIDED (i) common or contract carrier dump truckers may enter into an arrangement involving rental or leasing of trucks to highway construction contractors who are required by state or federal law to submit certified payrolls(:); (ii) such rental or lease arrangements must be filed with and approved by the commission; (iii) the total payments for and to the trucker under such rental or lease arrangements must be the equivalent of the charges which trucker would earn under applicable common carrier tariff rates; (iv) the contractor may not assess any charges against the carrier for accounting or bookkeeping expenses or make any deductions from rate charges earned which the common or contract carrier dump trucker is not legally liable to pay; (v) the common or contract carrier dump trucker must have the required permit authority for the territory and the commodities involved.

NEW SECTION

WAC 16-101-690 CIVIL PENALTIES—SUBSTANDARD MILK PRODUCTS. (1) For the purpose of this regulation, the Roese Gottleib procedure as described by the current edition of the Official Methods of Analysis of the Association of Official Analytical Chemists (AOAC) shall be the reference method for determining milk fat in milk and other fluid milk products. The reference test for total solids in milk and other milk products shall be the final action oven procedure as described by AOAC. Solids not fat shall be determined by subtraction of the fat from the total solids.

(2) Commencing July 1, 1987, a civil penalty may be imposed by the department for deviation by any dairy processing plants below the butterfat and solids not fat standards for fluid dairy products, as set forth in the Code of Federal Regulations (CFR 21, Part 131) as adopted by RCW 69.04.398 and chapter 16-101 WAC Milk and milk

products. The first deviation of any standard shall result in a civil penalty imposed upon the dairy processing plant in the amount of two thousand five hundred dollars. Any subsequent violations by a dairy processing plant during the six-month period following the initial violation shall result in doubling the initial civil penalty for the subsequent violations but in no case shall the civil penalty exceed ten thousand dollars per violation.

Each deviation below the above standards of any defined fluid milk product will constitute a single and separate offense and civil penalties shall be calculated and assessed per single, separate deviation.

For example, samples of dairy products were collected July 2, 1987, from plant X with the following results: For purposes of this rule BF is butter fat and SNF is solids not fat.

	Milk		2% Lowfat Milk		1% Lowfat Milk		Half & Half	
	BF	SNF	BF	SNF	BF	SNF	BF	SNF
Standard	3.25	8.25	2.0	8.25	1.0	8.25	10.5	8.25
Results	3.1	8.45	2.0	8.1	1.1	8.45	10.6	8.5
Penalty	\$2,500		\$5,000					
	Total penalty would be \$7,500.00							

Each violation after the third offense during a six-month period will require a ten thousand dollar fine.

EMERGENCY RULES
ADVISORY COUNCIL
ON HISTORIC PRESERVATION**

[Order 86-11—Filed November 19, 1986]

Be it resolved by the Washington State Advisory Council on Historic Preservation, acting at 111 West 21st Avenue, Olympia, Washington, that it does adopt the annexed rules relating to special tax valuation for rehabilitation of historic properties.

We, the Washington State Advisory Council on Historic Preservation, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is due to a transcription error, the word "should" appeared in the final rule rather than the word "shall." To maintain the original intent of the section as published in the proposed rules and supported at the public hearing, this wording must be in place when the WAC becomes permanent until the amendment becomes permanent.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 84.26.120 which directs that the Washington State Advisory Council on Historic Preservation has authority to implement the provisions of chapter 84.26 RCW and chapter 221, Laws of 1986.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW), and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

WAC 136-60-040 VALIDATION OF ANNUAL UPDATES. All control field updates will be subject to review, approval and acceptance (i.e., "validation") by the CRABoard. This process will involve reviewing the submitted documentation and conducting spot-checks as may be necessary. All such updates which are reviewed, approved and accepted by July 1 of each year will be entered into the master county road log. Non-control field updates will be entered into the master county road log file without review. The master county road log as of July 1 of each year will be utilized by the CRABoard for general informational purposes and, on each odd-numbered year, for computation of motor vehicle fuel tax allocations to the counties.

WAC 136-60-050 VALIDATION REQUIREMENTS FOR CONTROL FIELDS. Each update of a road log segment that involves a change in a control field (including additions or deletions of road segments) will be validated by the CRABoard. Documentation necessary to support the following control field changes is as follows:

Functional class – notice of FHWA approval from WSDOT.

Pavement type – statement signed by County Engineer with list of pavement type changes. A suitable scale map showing the limits of the change(s) must also be included.

Responsible Agency – see requirements under "Addition of mileage" and "Deletion of mileage".

Addition of mileage – statement signed by County Engineer describing the circumstances of the addition. For example, additions can occur through Commissioner approval of new plat, construction/reconstruction on new alignment, or a change in jurisdiction. Appropriate map(s) showing the changes must also be included.

Deletion of mileage – statement signed by County Engineer describing the circumstances of the deletion. For example, deletions can occur through vacations or a change in jurisdiction. Appropriate map(s) showing the changes must also be included.

Traffic volume – statement signed by County Engineer with list of segments affected by change in traffic volume. A statement is required only if it involves road segments with urban classification and with an ACP or PCC surface type and it involves a volume change crossing the 5000 ADT value.

All maps furnished in support of control field changes will be forwarded by the CRABoard to WSDOT for future map base updates.

Reviser's note: The unnecessary underscoring in the above section occurred in the copy filed by the agency and appears herein pursuant to the requirements of RCW 34.08.040.

WAC 136-60-060 UTILIZATION OF COMMON COMPUTER DATA BASE. Each county shall utilize a common computer data base for the maintenance and updating of its county road log. This data base shall be prescribed by the CRABoard and each county shall be responsible for the purchase and installation of the requisite software on its own IBM or IBM-compatible microcomputer.

EMERGENCY RULES
DEPARTMENT OF ECOLOGY
[Order DE 86-39—Filed November 19, 1986]

I, Philip C. Johnson, deputy director of the Department of Ecology, do promulgate and adopt at Olympia, Washington, the annexed rules relating to site use permits for use of the Washington commercial low-level radioactive waste disposal site. The purpose of the rules shown below are to implement RCW 43.200.080. The rules require that each generator and broker must possess a valid site use permit prior to the shipment of low-level radioactive waste to the disposal site, the disposal of low-level radioactive waste in the state of Washington; applicants must submit permit fee when filing the application; permit fee for a one-time use permit is \$50.00 and for multiple use permit is \$150.00 per year; and permittees must provide additional information when requested by the Department of Ecology as necessary for the safe management of low-level radioactive waste in the state of Washington. If you have any questions about these rules please contact Stephanie Ko, Low-Level Nuclear Waste Management Program, at (206) 459-6862.

I, Philip C. Johnson, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is low-level waste is currently being shipped to, and disposed of, in the state of Washington. State legislation has been passed which changes the rules for disposal of low-level waste. Immediate clarification of Washington's requirements to implement the state laws is necessary to avoid uncertainty which may lead to improper storage or disposal of low-level waste creating a public hazard.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 43.200.080 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules.

STATEMENT OF PURPOSE

The following statement has been prepared by the Employment Security Department for the purpose of legislative review of agency rules as provided by chapter 34.04 RCW.

WAC 192-12-005 – 192-12-141 substantive rules, these regulations have been drafted to define a claim for benefits and continued claim recipients and to clearly state the intent of the department as it relates to the conditional payment process.

WAC 192-12-005 defines adequate notice and opportunity to be heard. This new section was added to regulate department policy that claimants be advised of their rights and be given an opportunity to respond to information received by the department that could adversely affect their claim.

WAC 192-12-011 defines a continued claim recipient. Once a claimant has established status as a continued claim recipient the department is obligated to conditionally pay benefits until the claimant has been afforded adequate notice of the benefit eligibility issue and offered the opportunity to be heard. This new section was also added to describe situations that would remove a claimant from continued claim recipient status, such as any separation from employment issue or a four or more week interruption of benefit eligibility status.

WAC 192-12-012 authorizes conditional payment of benefits to continued claim recipients when eligibility is questioned and regulates departmental policy of issuing payment without delay unless the claimant specifically certifies to a condition of ineligibility.

WAC 192-12-141 is revised to include a definition of a claim for benefits, authorizes the return of incomplete claim forms for claimant correction instead of requiring conditional payment, regulates departmental policy of the reopening of claims, and provides for flexibility in methods of filing claims when authorized by the commissioner.

WAC 192-23-001 – 192-23-810 benefit payment regulations, the title of this chapter has been expanded from conditional payment regulations to benefit payment regulations as the conditional payment process is only a subset of the benefit payment process. These regulations have been drafted to clarify the issuance of presumptive disqualifications when claimants do not respond to a request for added information, reinforces the regulation to issue a redetermination of eligibility if the claimant successfully rebuts a presumption of disqualifying information, and authorizes the department to deny payment of benefits, without the requirement to conditionally pay

benefits, if the claimant clearly and specifically certifies to a condition of ineligibility.

WAC 192-23-001 is amended to emphasize the department's policy of issuing a redetermination for eligibility if a claimant successfully rebuts a presumption of disqualifying information.

WAC 192-23-011 is amended to clarify conditional payment action when a claimant certifies to work and earnings, but omits employer name and address information. WAC 192-23-011(1) conforms to WAC 192-12-141(5) and applies to situations where a continued claim meets the definition of a claim for benefits, the claimant certifies to the amount of work and earnings, and the claims processor can readily discern the absence of employer name and address information. WAC 192-23-011(2) applies to situations when a claimant advises the department that he or she will have work or earnings for a week not yet claimed but omits any earnings information when submitting the claim form. Since the claims processor would not be aware that work and earnings information was omitted and the automated system cannot scan for all the elements required for a claim for benefits and thereby return "incomplete" claims to claimants, the absence of earnings information would trigger the system to conditionally pay/pend the questionable week, instead of first returning the claim form to the claimant for correction. If a claimant fails to respond to a request for added information a denial under RCW 50.20.010 would apply for the week in question.

WAC 192-23-012 is amended to clarify conditional payment action when a claimant certifies to holiday or vacation pay, but omits the source name and address information. WAC 192-23-012(1) conforms to WAC 192-12-141(5) and applies to situations where a continued claim meets the definition of a claim for benefits, the claimant certifies to the amount of holiday/vacation pay, and the claims processor can readily discern the absence of employer name and address information. WAC 192-23-012(2) applies to situations when a claimant advises the department that he or she will have holiday or vacation pay for a week not yet claimed but omits any earnings information when submitting the claim form. Since the claims processor would not be aware that holiday/vacation pay information was omitted and the automated system cannot scan for all the elements required for a claim for benefits and thereby return "incomplete" claims to claimants, the absence of earnings information would trigger the system to conditionally pay/pend the questionable week, instead of first returning the claim form to the claimant for correction. If a claimant fails to respond to a request for added information a denial under RCW 50.20.010 would apply for the week in question.

WAC 192-23-014 is amended to provide for an indefinite denial of benefits if a claimant certifies that he or she was not able and/or available for work due to a circumstance which is clearly a continuing condition. If a claimant fails to respond to a request for added information a denial under RCW 50.20.010(3) would apply beginning the first week in question and remain in effect until the circumstances no longer exist.

WAC 192-23-015 is amended to strike language that lists work search details, as individual work search directives could require claimants to report their work search efforts in a different manner. Also, it is anticipated that a revision to the continued claim form will remove work search details from that form. If a claimant certifies that he or she was not actively seeking work and fails to respond to a request for added information, a denial under RCW 50.20.010(3) would apply for the week(s) in question.

WAC 192-23-016 is amended to emphasize that an individual work search directive must be issued to claimants prior to any denials for failure to meet specific work search requirements. If a claimant has been given a work search directive and fails to respond to a request for added information, a denial under RCW 50.20.010(3) would apply for the week(s) in question.

WAC 192-23-018 is added to specifically address a claimant's failure to reopen a claim after a break in weeks claimed. This provision is extracted from WAC 192-23-051 to more closely reflect the appropriate issue and law. If a claimant fails to reopen a claim in person after a break in weeks claimed and fails to respond to a request to report in person, a denial under RCW 50.20.010(1) would apply beginning the first week in question and remain in effect until the claimant reports in person to reopen the claim.

WAC 192-23-051 is amended to remove the issue of breaks in weeks claimed from its jurisdiction. It now confines itself to situations where probable job separation issues exist. If a claimant reports no work or earnings, no employer nor job separation information after a previous claim with reported earnings, and if the claimant does not respond to a request for added information, a denial under RCW 50.20.050 would apply beginning with the week in question and remain in effect until the claimant meets the requalification provisions.

WAC 192-23-800 is amended to allow for an immediate reduction or denial of benefits if a claimant clearly certifies to a condition of ineligibility. It is also amended to regulate department policy that determination notices for such denials be issued the same day the continued claim form would normally be processed. WAC 192-23-800(1) is added to allow for 1/7 and 2/7 reductions only for the week(s) in question. WAC 192-23-800(2) applies to denials based on a claimant's clear certification that he or she was not able or available for work for three or more days. It is revised to allow a denial under RCW 50.20.010(3) instead of RCW 50.20.010(2) and it would only apply for the week(s) in question. WAC 192-23-800(3) is added to allow for a indefinite denial under RCW 50.20.010(3) if a claimant clearly certifies to a continuing condition of ineligibility. WAC 192-23-800(4) is added to allow for a denial under RCW 50.20.010(2) when a claimant submits a legal claim for benefits and clearly states that he or she does not wish to receive payment for that week(s). This denial would only apply to the week(s) in question. WAC 192-23-800(5) is added to emphasize the department's policy that any determination notices for denials under this section must be issued without delay.

WAC 192-23-810 is amended to allow for an immediate denial if a claimant certifies to return to full time work or reports hours worked consistent with full-time work. A denial under RCW 50.20.010 would apply only to the week(s) in question. It is also amended to reinforce department policy that any such determination notices must be issued on the same day as the continued claim form would normally be processed.

The amendments and changes in this package were prepared by Marie Brillante, Employment Security Program Coordinator 3, 212 Maple Park, Olympia, Washington 98504. Her phone number is (206) 586-8964. The rules are administered by Jim Wolfe, Assistant Commissioner for Unemployment Insurance, 753-5120 and Gary Christensen, Assistant Commissioner for Field Operations, 753-5149.

NEW SECTION

WAC 192-12-005 ADEQUATE NOTICE AND OPPORTUNITY TO BE HEARD DEFINED. For the purposes of chapter 50 RCW and chapter 192 WAC the following definitions apply:

(1) "Adequate notice" means a written notice to a claimant explaining:

(a) That his/her eligibility for benefits is in question.

(b) The issue(s) raised.

(c) That the claimant has the right to report in person for a fact-finding interview regarding his or her eligibility for benefits and that he or she has the right to bring an attorney or other representative, witnesses and other documentary evidence, and the right to cross-examine witnesses or parties present.

(d) That the claimant is entitled to access to records or documents possessed by the department relevant to the issue raised.

(e) The date before which the claimant must respond as directed and an explanation that failure to respond may result in a denial and overpayment of benefits. The date must be no earlier than reasonable mailing time plus five working days.

(2) "Opportunity to be heard" means an offer to hold a fact-finding interview to resolve the department's questions regarding the claimant's eligibility for benefits.

Prior to asking the claimant to respond, the department shall make available all information of which it is aware that could result in a denial of benefits.

The department shall not incorporate into a determination of benefit eligibility new adverse information received after the fact-finding interview or after the claimant has responded as authorized without first notifying the claimant of the contents of that information and giving the claimant the opportunity to respond.

NEW SECTION

WAC 192-12-011 CONTINUED CLAIM DEFINITIONS. (1)

A continued claim recipient is a claimant who has been:

(a) Determined to be monetarily entitled to benefits; and

(b) Determined to be nonmonetarily eligible for benefits; and

(c) Granted waiting period credit and/or benefits for one or more weeks in the benefit year and in the current continued claim series.

(2) For the purpose of determining if a claimant remains in continued claim recipient status, a continued claim series ends and a new period of eligibility must be established when there is:

(a) A potentially disqualifying separation from employment; or

(b) A period of unemployment due to a strike, lockout, or other labor dispute; or

(c) Any combination of four or more consecutive weeks for which claims are not filed, or weeks during which the claimant is not an unemployed individual as defined in RCW 50.04.310.

NEW SECTION

WAC 192-12-012 CONDITIONAL PAYMENT OF CONTINUED CLAIM RECIPIENTS WHEN ELIGIBILITY IS QUESTIONED. An otherwise eligible continued claim recipient whose eligibility is questioned by the department shall be conditionally paid benefits without delay, for any week or weeks for which a claim for benefits is filed, until and unless the claimant has been afforded adequate notice and an opportunity to be heard except as provided in WAC 192-23-800 and 192-23-810.

AMENDATORY SECTION (Amending Order 2-75, filed 2/10/75)

WAC 192-12-141 REGISTRATION, REPORTS, AND CLAIMS FOR UNEMPLOYMENT COMPENSATION AND RELATED BENEFITS. (1) Interstate claimants. Individuals who file interstate claims for benefits against this state through the local office of any agent state shall not be subject to this regulation. (See WAC 192-12-130.)

(2) Application for initial determination. Except for good cause shown an application for initial determination shall be filed in person at a Washington state employment security office on forms provided by the department. Such application may be made at any time.

(3) Registration for work. As a condition of eligibility for waiting period credit or benefits, an individual shall register for work at an office of the Washington state employment security department on forms provided and shall thereafter renew his or her registration as directed during the total period in which he or she maintains active claim status except as provided in WAC 192-12-150, covering the requirements for payment of benefits to partially unemployed individuals and standby workers.

(4) Perfecting a claim for waiting period credit.

(a) Except for good cause shown, to perfect a claim for waiting period credit, a claimant shall report in person at an employment security department office during the week for which he or she intends to claim waiting period credit.

(b) The claim for waiting period credit shall be made in writing on forms provided by the department. It shall be filed at the office during the calendar week immediately following the last day of the week being claimed except for good cause shown.

(5) Claim for benefits. A claim for waiting period credit or benefits shall be filed with a Washington state employment security office, ((in writing, on forms)) as prescribed by the department. The department shall determine the method and time sequence by which each individual shall file a claim for benefits.

(a) A written claim for waiting period credit or benefits shall:

(i) Include a correct week ending date which is the Saturday date of the week being claimed, and

(ii) Be filed after the week ending date of the week claimed, and

(iii) Include the claimant's signature, and

(iv) Be filed against an established benefit year ending date, whether monetarily eligible or ineligible, and

(v) Include certification as to the amount of remuneration, if any, including a pension, holiday pay, vacation pay, or earnings for the week or weeks claimed, and a certification of the number of hours during each week claimed unless the certification of remuneration removes the claimant from the status of an unemployed individual as defined in RCW 50.04.310.

(b) The method for filing claims shall be one of the following:

(i) In-person method, whereby the claimant shall file the claim in person except for good cause shown;

(ii) Mail method, whereby the claimant shall file the claim by mail or in a Washington state employment security office ((drop box)) except for good cause shown. Claims submitted by mail shall be deemed filed with the department on the postmarked date.

(iii) Any other manner, when authorized by the commissioner, including but not limited to, certification by warrant endorsement or by a telephone claim process.

(iii) Any other manner when authorized by the commissioner.

(6) Certain exceptions pertaining to filing claims in person.

(a) A claimant who is directed to file a claim for waiting period credit or benefits in person and because of returning to work is unable to do so must be permitted to file the claim by mail. The claimant must file the claim or claims within the same period as the claimant was directed to file in person except for good cause shown, provided that claims submitted by mail shall be deemed filed with the department on the postmarked date.

(b) In the event that a claimant is scheduled to file a claim (or claims) in person on the last business day of the week and the claimant fails to file as scheduled, the claimant shall be allowed the next business day to file such claim (or claims) in person.

(7) Reporting responsibility. Irrespective of time sequences for filing claims for waiting period credit or benefits, the department may require a claimant to report to a local office in person for any reason deemed appropriate. Failure to report, as and when directed, shall result in the denial of benefits for the week during which such failure occurs, except for good cause shown.

(8) Itinerant offices. In cases where a representative of the employment security department shall establish a location apart from the usual place of reporting for the purpose of taking registrations, initial applications or claims for waiting period credit or benefits, all individuals registering or filing an application or claims at such location shall be deemed to have registered or filed at an Employment Security office.

(9) Provisions for handling incomplete claims. (a) In the event that a claim form does not conform to the definition of a claim for waiting period credit or benefits, the form may be returned to the claimant for correction or completion. Any such returned form will be accompanied by a written explanation of the reason for return, and the correction or completion of omitted entries required.

(b) If a claim form is submitted with the intent to claim benefits for more than one week, and one or more of the weeks do not conform to the definition of a claim for benefits, the week or weeks that do meet the definition shall be promptly processed.

(10) Reopening of claims. A claimant shall report in person at an employment security department office during the first week for which benefits are claimed after a break or interruption of one or more weeks in a series of consecutive weekly claims, except for good cause shown. The department may waive or modify this requirement, when authorized by the commissioner, for administrative reasons or to reduce hardship to the public.
